## RAISING THE BAR AND YOUR EXPECTATIONS
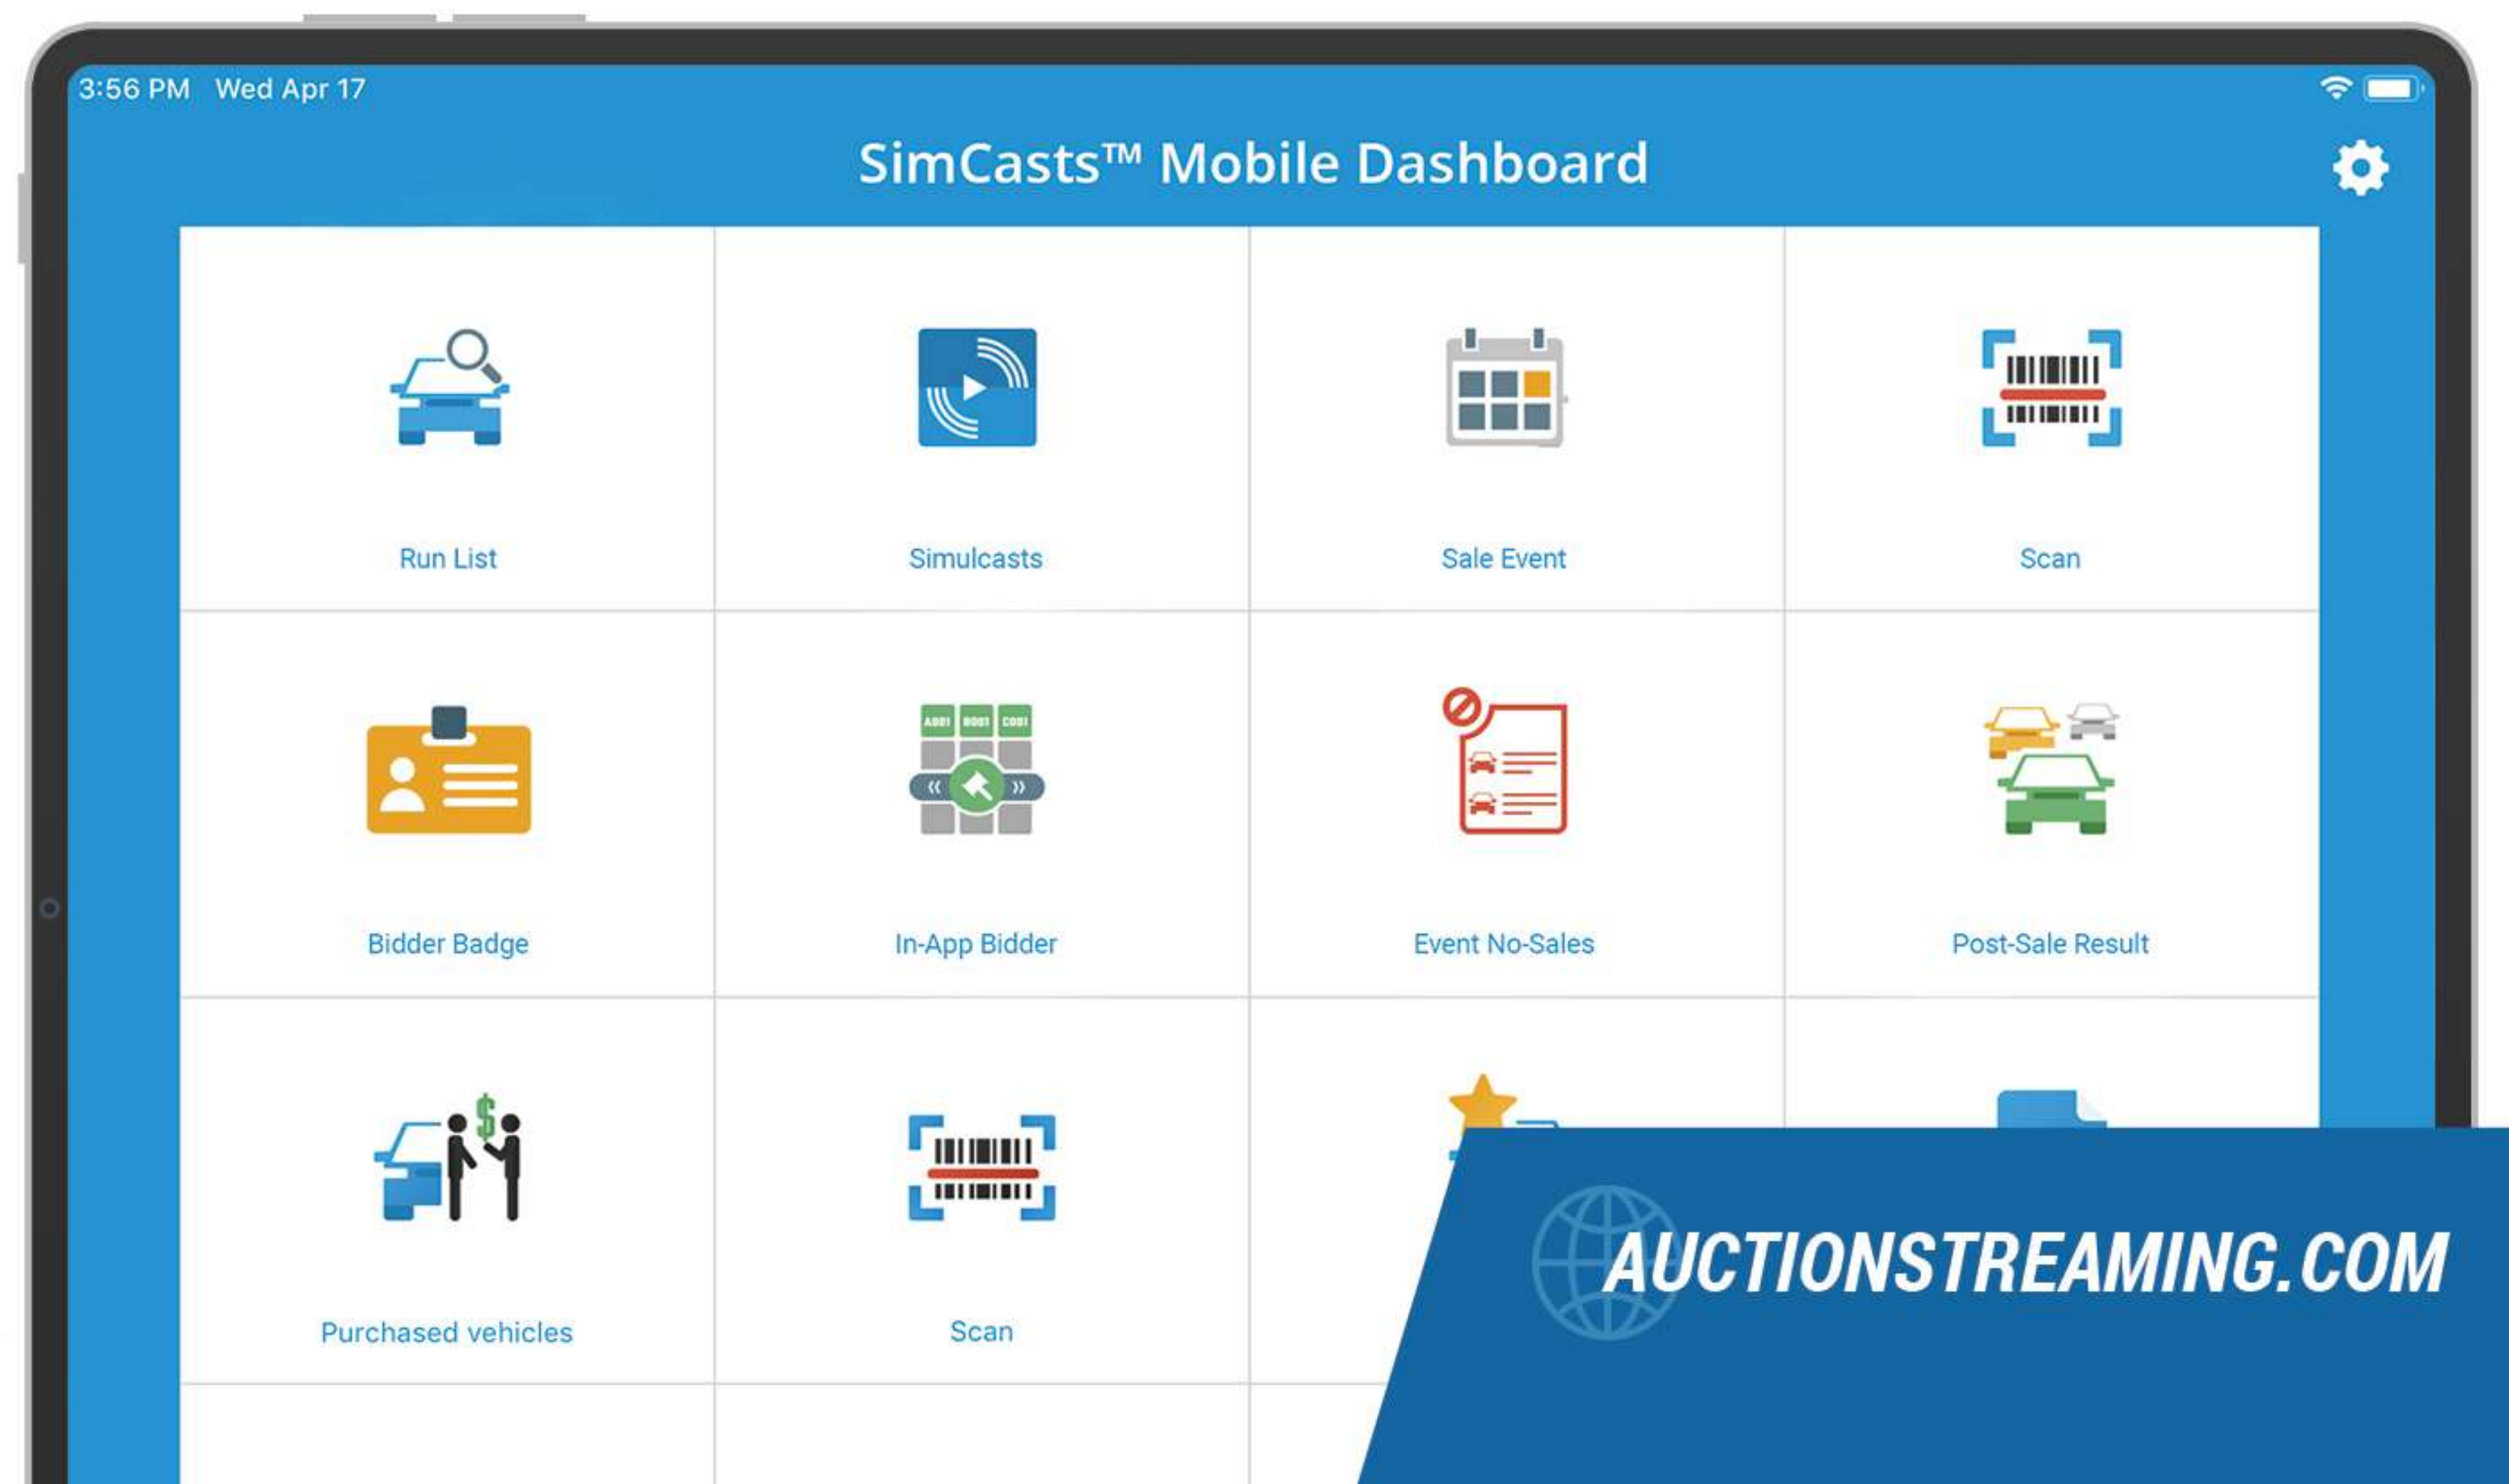

## THE AUCTION APP FOR YOUR DEALERS

Auction Streaming is committed to improving the overall dealer experience with your auction, and enabling dealers to choose how and when they want to do business with you. That's why we've launched our SimCasts™ Mobile Dashboard, an application designed to let dealers participate in live auctions from their mobile devices.

Our SimCasts™ Mobile Dashboard provides website functionality that's been converted into a mobile application. Now the most popular features of the desktop version are available to your dealers anytime, anywhere, and even if they're away from the auction lanes.

## AS REGISTERED USERS YOUR DEALERS CAN

- JOIN ONLINE SALES EVENTS USING MOBILE DEVICE

- BID ON VEHICLES IN-LANE, IN-APP OR VIA SIMULCAST WHEN ON THE GO

- REAL TIME BROADCAST OF VIDEO AND AUDIO OF THE SALE WITH VIRTUALLY NO LAGS OR INTERRUPTIONS

- SIMULTANEOUSLY WATCH A MULTIPLE VIDEO STREAMS OF VEHICLES AND AUCTIONEER

- INSTANT MESSAGING TO THE CLERK AND SELLER WITH ANY QUESTIONS AND COMMENTS

- MONITOR THE VEHICLE BID HISTORY

- FULL ACCESS TO ALL YOUR BUY/SELL REPORTS, ACCOUNTING BALANCES, SALES HISTORY AND WATCHLIST

The automotive industry is constantly moving forward and so are we. Our development team regularly collects feedback on the apps we have created in order to update and improve them, in accordance with each individual user's needs. Recently we added two great new features to our SimCasts™ Mobile Dashboard: a Bidder Badge feature and a Mobile Reporting feature.

## UNMATCHED SUPPORT

**A CLAIM NO OTHERS CAN MAKE**

100 architects and developers, along with dedicated support staff are standing by to turn your ideas and needs into reality.

## TURN-KEY SOLUTION

**MULTIPLE PRODUCTS AND ONE PHONE CALL**

A suite of turn-key integrated wholesale products at prices equal to or less than other single stand-alone products.

## THIRD-PARTY INTERFACES

**CONNECTIVITY AND BEYOND**

We can act as your front-end to Auto IMS or take data feeds directly from your client's Dealer Management System (DMS).

## CLOUD SERVICES

**ONLINE BUSINESS INTELLIGENCE**

Cloud-based auction management means transparency and data-mining across all your rooftops from a single dashboard.

## MISSION CRITICAL ENTERPRISE SOFTWARE

**THE MOST IMPORTANT DAY OF THE WEEK**

Business logic that secures your auction from any kind of failure before, during, and after the sale.

## DOCUMENT CONTROL

**PRINTING, EXPORTS AND SOFT COPY**

Customized document management: formatting, printing, importing, exporting, and electronic delivery.

## MODERN TOOLS AND DEVICES

**ANDROID, IOS AND WINDOWS**

Every wired and wireless option imaginable for lot management, vehicle registration, condition reporting, or on-boarding inventory at the dealer lot.

## SOFTWARE AS A SERVICE

**UNIFIED SOFTWARE DISTRIBUTION**

Multi-auction headquarters, identical databases and software releases in a unified code-base to eliminate conflicts in features and reporting.

## EXPAND YOUR REACH

## FLEXIBILITY

### NOW YOU CAN HAVE IT ALL
### "PRE-SALE, IN-LANE OR POST-SALE"

The SimCasts™ mobile application allows auctions to broadcast a live stream during the live sale In-Lane. The SimCasts™ app gives the subscriber a realistic feeling of being present next to the car: the online bidder can navigate with a mobile camera to zoom in on a particular part of the vehicle for a Live inspection, which is impossible with a standard fixed camera. With the SimCasts™ mobile application, online bidders have access to every option that in-lane bidders have without the need to be present at the auction. This innovative software will help independent auctions become well-organized and attract more distant audiences to their lanes.

## AUCTION BENEFITS

### NOTIFICATION FOR PRESENTERS
Auction Reps are notified via text when a bidder has requested a SimCasts™ session.

### COMMUNICATE EFFECTIVELY
Communicate with your bidders in 1-Clerk chat or through the SimCasts™ App for unparalleled bidding confidence.

### ENTERPRISE QUALITY STREAMING
The SimCasts™ video sessions launch and stream even with low bandwidth. Streams are unaffected by a connection loss.

### PRE-AUCTION MODE
Auctions can utilize the SimCasts™ App to stream and showcase a vehicle to prospective buyers, in effect creating a virtual lane they can utilize at any time during the week.

## SINGLE-CLERK FUNCTIONALITY

Manages SimCasts™, CAMS 3™ and AuctionLink™. The clerk can quickly locate vehicles using the vehicle sequence number in an intuitive interface.
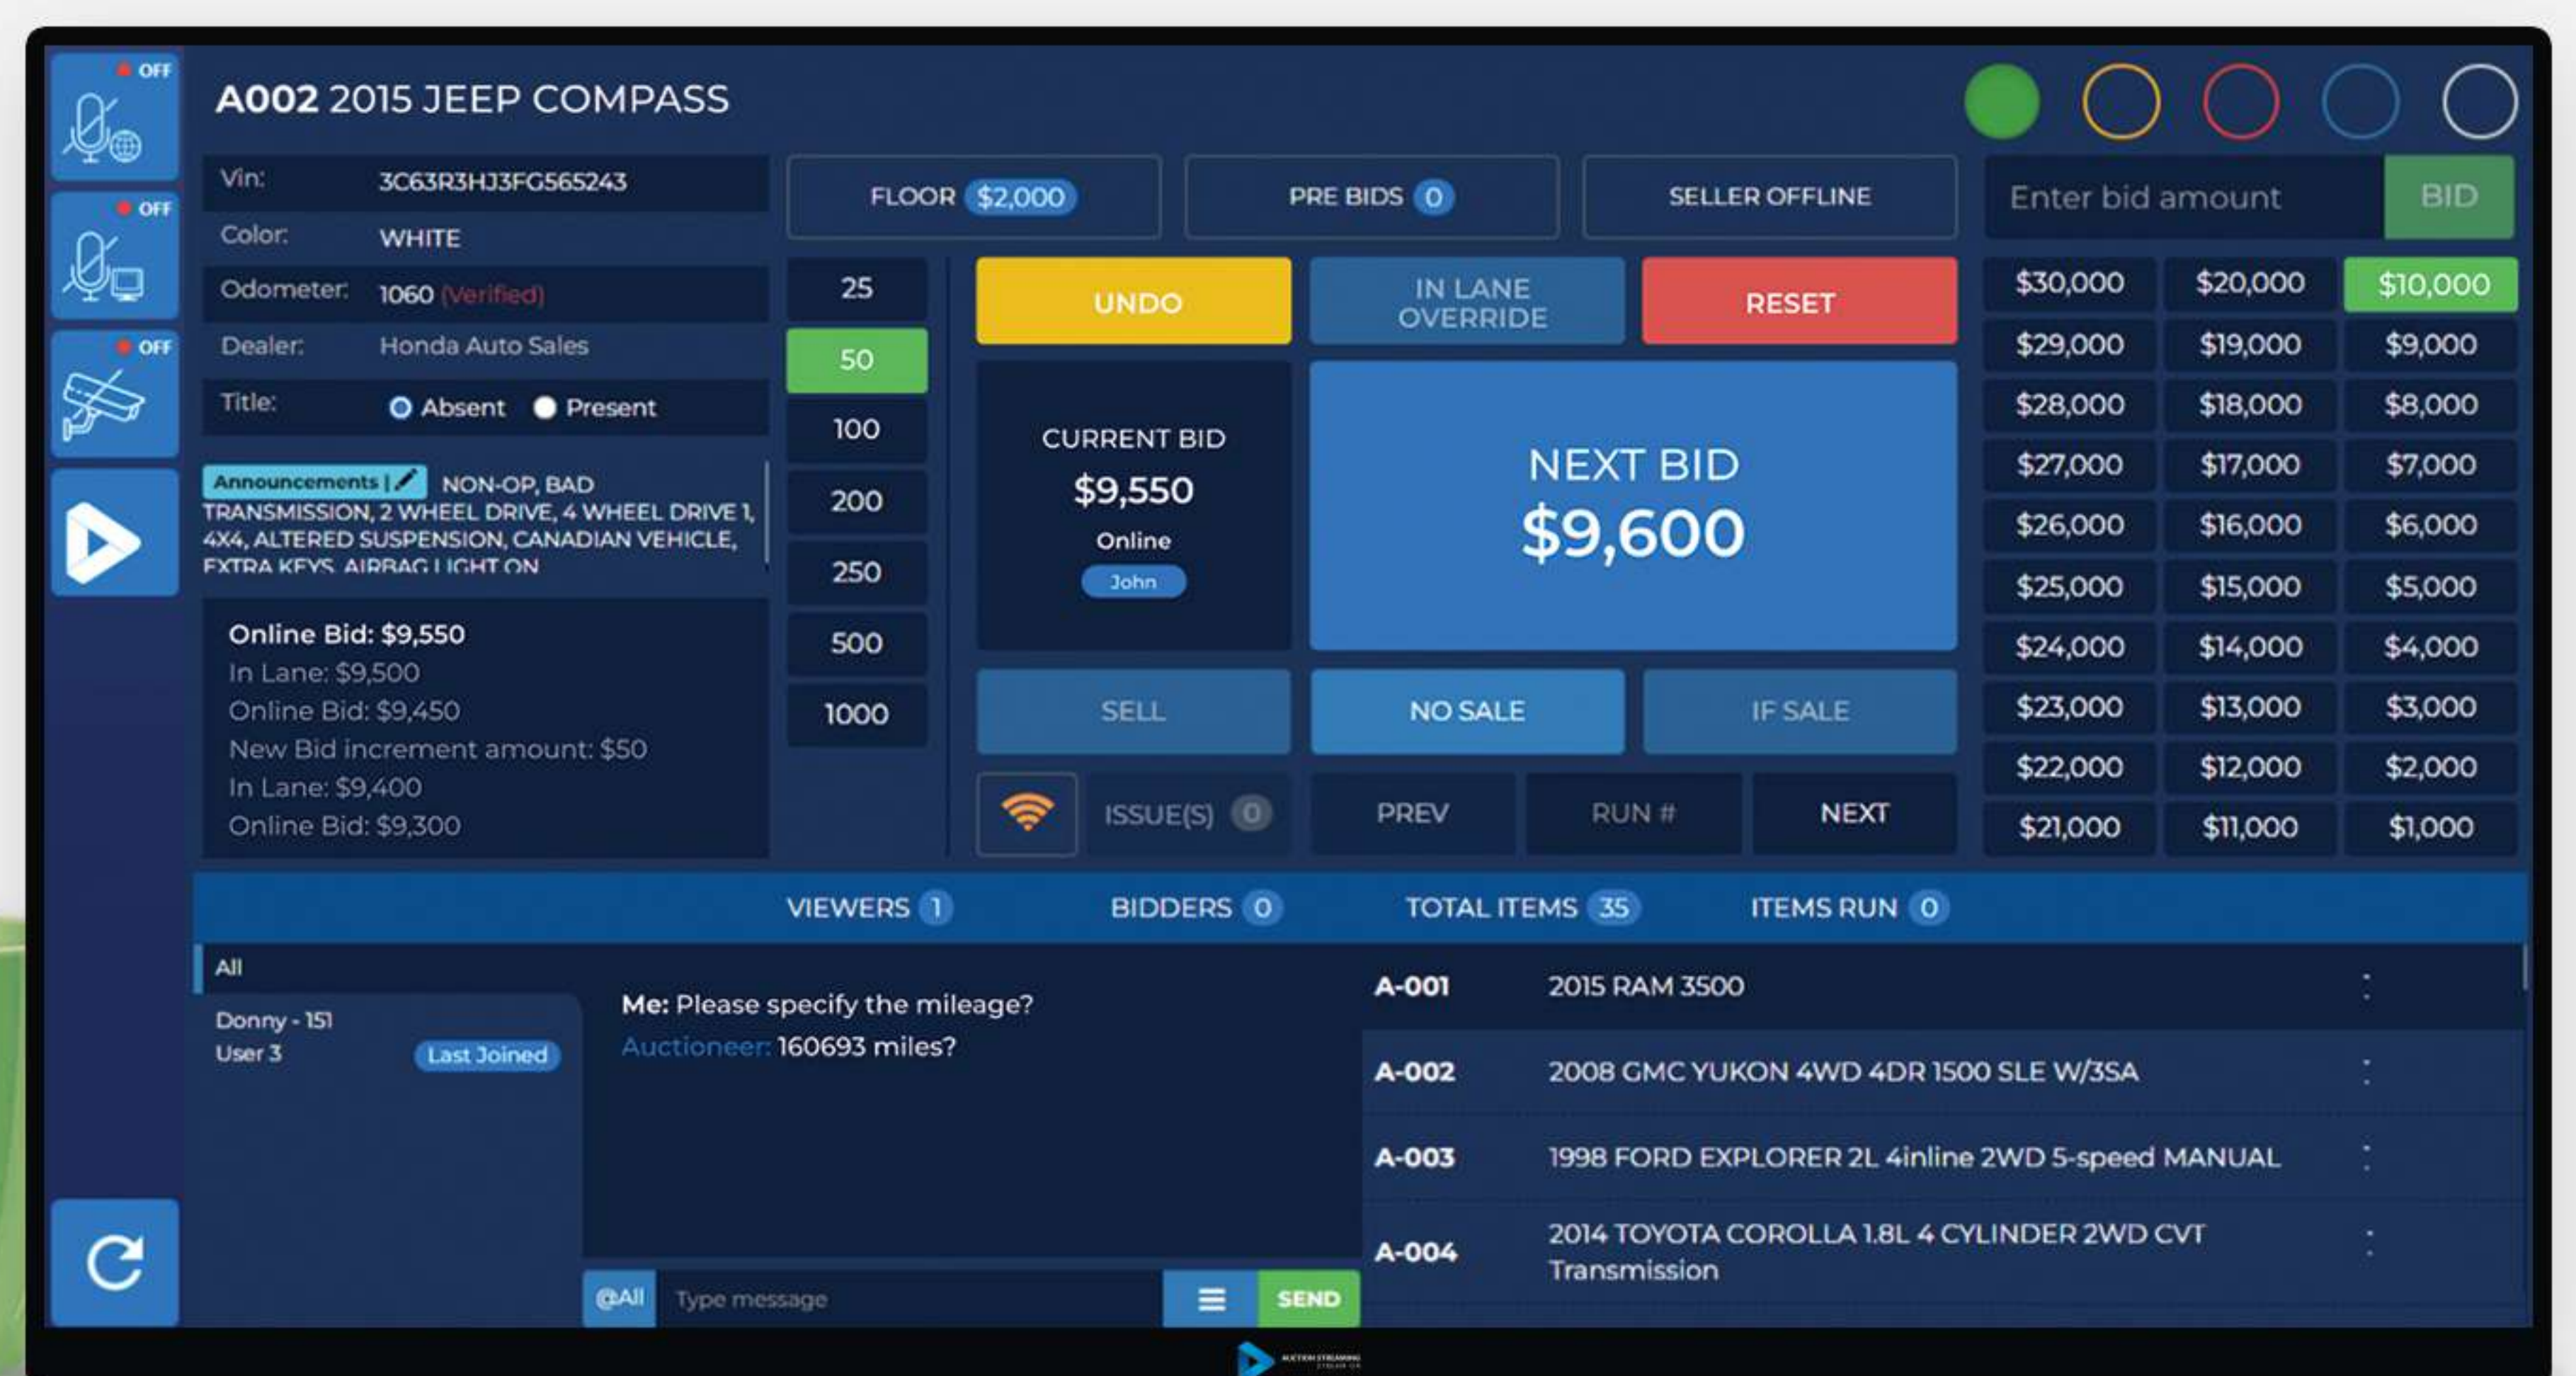

# MULTI-LANE BUYER PAGE
## 6 LANES ON ONE SCREEN

## 6 LANES ON ONE SCREEN

Auction Streaming's Multi-Lane Buyer Interface enables dealers to check up to 6 lanes and have them all displayed on a single screen for multilane participation, rapid bidding, and live streaming. Manipulate lanes and streams via control buttons: mute/unmute, zoom in and out, expand and collapse, move lanes left and right to focus on the lane of interest, set proxy and bid live. See the full run list and open vehicle detail pages with one click.

- RAPID BIDDING, LIVE AUDIO & VIDEO STREAMING

- CONTROL BUTTONS TO MANIPULATE LANES AT YOUR DISCRETION

- OFFER A UNIQUELY ENGAGING & EXCITING AUCTION EXPERIENCE

- DISPLAY UP TO 6 LANES SIMULTANEOUSLY

- ADD CAPACITY TO SELL MORE VEHICLES AND ENJOY RECORD SALES

- SINGLE SCREEN FOR MULTILANE PARTICIPATION

## KEEP YOUR ONLINE BIDDERS ENGAGED THROUGHOUT THE EVENT

It is no secret that Auctioneers are the life blood of any auction. They not only manage the entire bidding / selling process, but they need to be entertaining, engaging and charismatic to build excitement and drive the bidding up. All of which is only truly effective when you can see and hear the auctioneer.

Our new **Auctioneer Display Interface (ADI)** allows your auctioneer to use the rear facing camera on a tablet to interact with online bidders as if they were "In Lane" while retaining access to all mission critical information such as vehicle details, current bid, and bid history.

Our ADI seamlessly bridges the gap between the "In Lane" and "Online" buying experience to keep all dealers engaged and make the auctioneer even more effective.

- BETTER ENGAGEMENT WITH ONLINE BIDDERS
- CLEAR TWO-WAY INTERACTIONS
- MISSION CRITICAL INFORMATION AT THE AUCTIONEER'S FINGERTIPS

AUCTIONSTREAMING.COM

# A.I. AUCTIONEER (BETA)

## TIRELESS AUCTIONEER'S ALTERNATIVE

## A.I. AUCTIONEER

The auctioneer is often compared to a conductor of an orchestra, maintaining the tempo of the event and synchronizing all performers for perfect harmony. What if you could keep the showmanship without the massive cost spent on the auctioneer and the ringman? Auction Streaming has developed the revolutionary A.I. Auctioneer (Beta) that combines the auctioneer's personality with machine learning for an unprecedented artificial intelligence experience. A.I. Auctioneer behaves much like the human auctioneer with nearly all the speech track and charisma but never tires out, never needs a break, and loses focus of its purpose to engage, sell and entertain.

A.I. Auctioneer will call out to every buyer in-lane and online and remembers their buying habits, watchlist choices, history purchases, utilizing all parameters to improve the experience. Vehicles in high demand and frequent bidders will be extended for higher sales results and lower participation or stalled vehicles will be rapidly closed out or set to re-run later in the day. A.I. Auctioneer is a tireless alternative to a human auctioneer for tremendous savings.

## THE BENEFITS FOR AUCTIONS

- **FAST:** MILLISECOND DECISION MAKING AND SELF-ADJUSTING SPEECH ALGORITHM

- **COST-SAVING:** REDUCES THE NEED FOR AUCTIONEER AND RINGMAN

- **PREDICTIVE:** CONTROLLED A.I. AUCTIONEER'S SPEECH AND DATABASE SCENARIOS

- **OVERSIGHTS:** NO MORE PHANTOM BIDS, FAKE OR MISSED BIDS, NO SHENANIGANS

- **TIRELESS:** NEVER TIRED, SICK, COMPLAIN, OR ABSENT

- **TIMED:** TIME-CONSCIOUS AND MONITORING WITH ALERT ANNOUNCEMENTS

- **MULTILINGUAL:** CUSTOMIZED, USER-SPECIFIC, LANGUAGE DELIVERY SYSTEM

- **MACHINE LEARNING:** CONTINUOUS ADAPTATION TO BUYERS' INPUT

- **NONGENDER:** LANE, SELLER, VEHICLE-SPECIFIC GENDER VOICE OPTION

# IF-SALE COUNTER OFFER
## LABOR AND TIME SAVINGS

## AUTOMATED NEGOTIATOR

Is your staff completely inundated on sale day conducting a long and drawn out buyer and seller negotiation process? When a buyer bids on a vehicle, and their offer is lower than the price set by a seller, a vehicle gets an "IF- SALE" status and the negotiation begins. You never know how long it will last and how much time your staff will waste trying to establish a common solution.

The If-Sale counter offer tool does the heavy lifting allowing your staff to focus on the relationship building with your clients.

Auction Streaming has developed an If-Sale Counter Offer Automation feature with SMS / Email within Simulcast. This feature helps independent auto auctions decrease recurring menial tasks through automation, and the streamlining of essential processes, resulting in headcount reduction.

**INFO** PANEL

**VEHICLE** INSPECTION REPORT™

**LAST** OFFER

**BUYER** OFFER

**SELLER** OFFER

**CURRENT** OFFER

**TIME** REMAINING

**CONTROL** PANEL

## INTUITIVE DESIGN CREATES A SEAMLESS EXPERIENCE

When a buyer is ready to purchase a vehicle, but at a lower price, he offers an amount that would require the seller's approval, and the vehicle gets a temporary "IF-SALE" status.

**SELLER**

**BUYER**
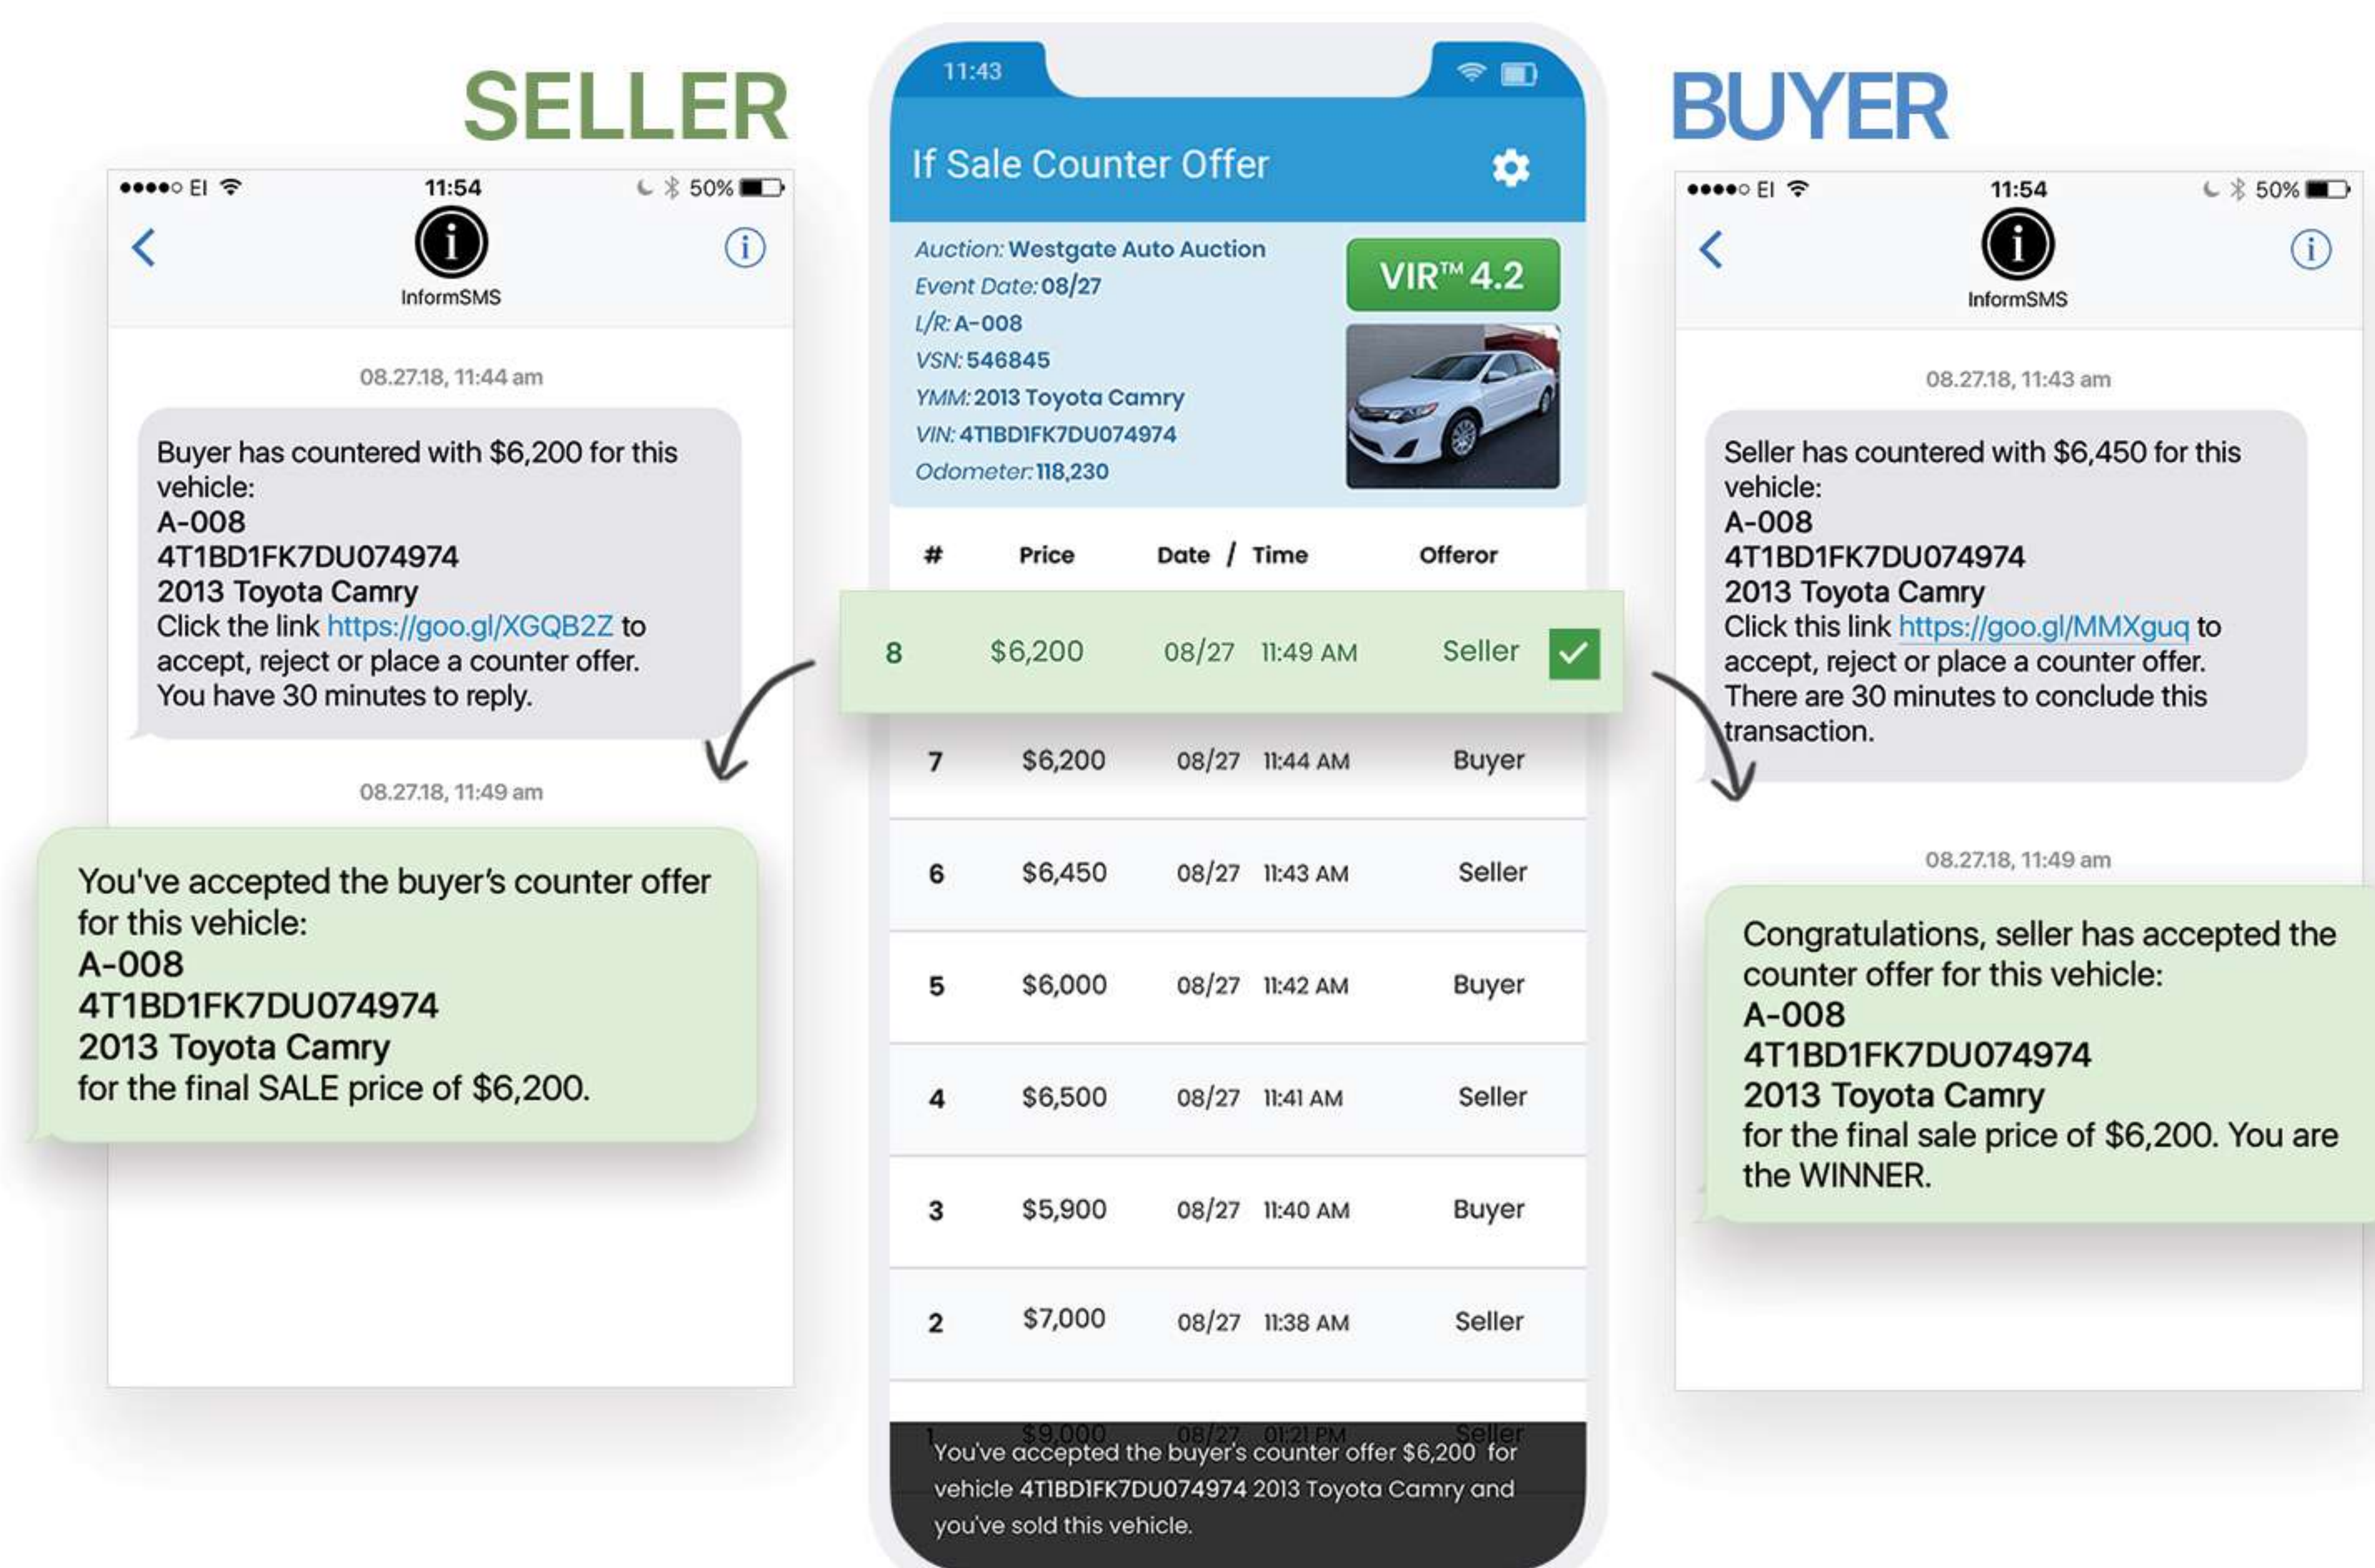

An SMS and Email notification is instantly generated to inform the seller about the IF-SALE bid proposal. The notification contains the bid amount, Vehicle Identification Number (VIN), Year, Make, and Model, and the deadline when the offer expires, with a link to the Simcast IF-SALE Counteroffer Management page.

On Simcast IF-SALE Counteroffer Management page the seller can accept or reject the offer, or make a counter offer with the price he is willing to sell the vehicle for. To manage this offer, the seller needs to follow the link in an SMS / Email to be redirected to a Simcast IF-SALE Counteroffer Management page.

The IF-SALE Counteroffer Automation feature is a tool that can transform your auction into a more efficient and lucrative business.

# IN-APP BIDDER
## BIDDER ENGAGEMENT AND ACCOUNTABILITY

## BENEFITS OF IN-APP BIDDER

- ELIMINATE PHANTOM BIDDING AND SHENANIGANS AT YOUR AUCTION

- ELIMINATE UNSEEN BIDDERS BY THE RINGMAN OR AUCTIONEER

- REDUCE OVERHEAD AND SERVICES COST

- GAIN MORE PROXY BIDS FOR HIGHER SALES PRICE

- GRANT BIDDING OPTION TO BUYERS TO PARTICIPATE IN ANY LANE SIMULTANEOUSLY

- ENHANCED USER INTERFACE FOR MORE ENGAGING BUYER EXPERIENCE

- REDUCE ARBITRATION AND MIS-BIDS DUE TO HUMAN ERROR

- AUTOMATE THE BUYER INTERACTION AND INVOLVEMENT WITH YOUR AUCTION

- INCREASE RAPID BID PLACEMENT INSTANTLY

- REDUCE THE WORKLOAD ON THE BLOCK CLERK AND AUCTIONEER

- ENSURE YOUR BUYERS ARE CONTINUOUSLY SEEN AND PARTICIPATING IN THE BIDDING PROCESS

- INCREASE CONVERSIONS AND SEE HIGHER VEHICLE SALES PRICES

- PROVEN SWIPE METHODOLOGY IN CAPTURING THE BID AND PROXY INSTANTLY

- TIME-TO-BLOCK TIME MANAGEMENT WITH ALERT TO ENSURE THE BUYER NEVER MISSES A VEHICLE PURCHASE AGAIN

- COMPREHENSIVE FILTERING CAPABILITY TO HELP THE BUYER FOCUS ONLY ON SPECIFIC VEHICLES OF INTEREST

- INSTANT UPDATING WITH WARNING FEEDBACK TO BUYER OF AVAILABLE FP CREDIT LIMIT

- INSTANT RUN LIST UPDATES AND VEHICLE HISTORY STATUS FOR KEEPING THE BUYER INFORMED

- ELIMINATES OUTDATED AND EXPIRED RUN LIST ALLOWING YOUR AUCTION TO MAKE UPDATED UP TO POSSIBLY FEW MINUTES BEFORE THE VEHICLE COMES ONTO THE BLOCK

- IN COOPERATION WITH THE MOBILE DASHBOARD APP THE IN-APP BIDDER FEATURE WILL DISPLAY AND ALERT THE BUYER OF THEIR WATCHLIST AND PREVIOUSLY MATCHING CRITERIA TO THEIR SEARCH RESULTS, ALL ON ONE PAGE

- POPUP NOTIFICATIONS IN THE APP TO ENCOURAGE INSTANT REPLY FROM BUYER

## VIR™

Vehicle Inspection Report™ (VIR™) is software for the accurate and reliable online inspection of a vehicle for the following parameters: exterior, interior, mechanics, tires, paint and frame, and OBD. Bid with confidence knowing each vehicle listed has been independently inspected. If there is a VIR™ icon in the vehicle profile it means that its condition and severity have been thoroughly graded: the car's general grading and the minor grades of its separate parts and areas are given in the report.

All grades are marked with color coding and are based on the standard grading system used with online auction and marketplace platforms. The information specified in VIR™ is verified with pictures of the vehicle parts/areas,  so dealers can be sure in the quality and condition of the vehicle. Vehicle Inspection Report™ shows every car from every side and corner.
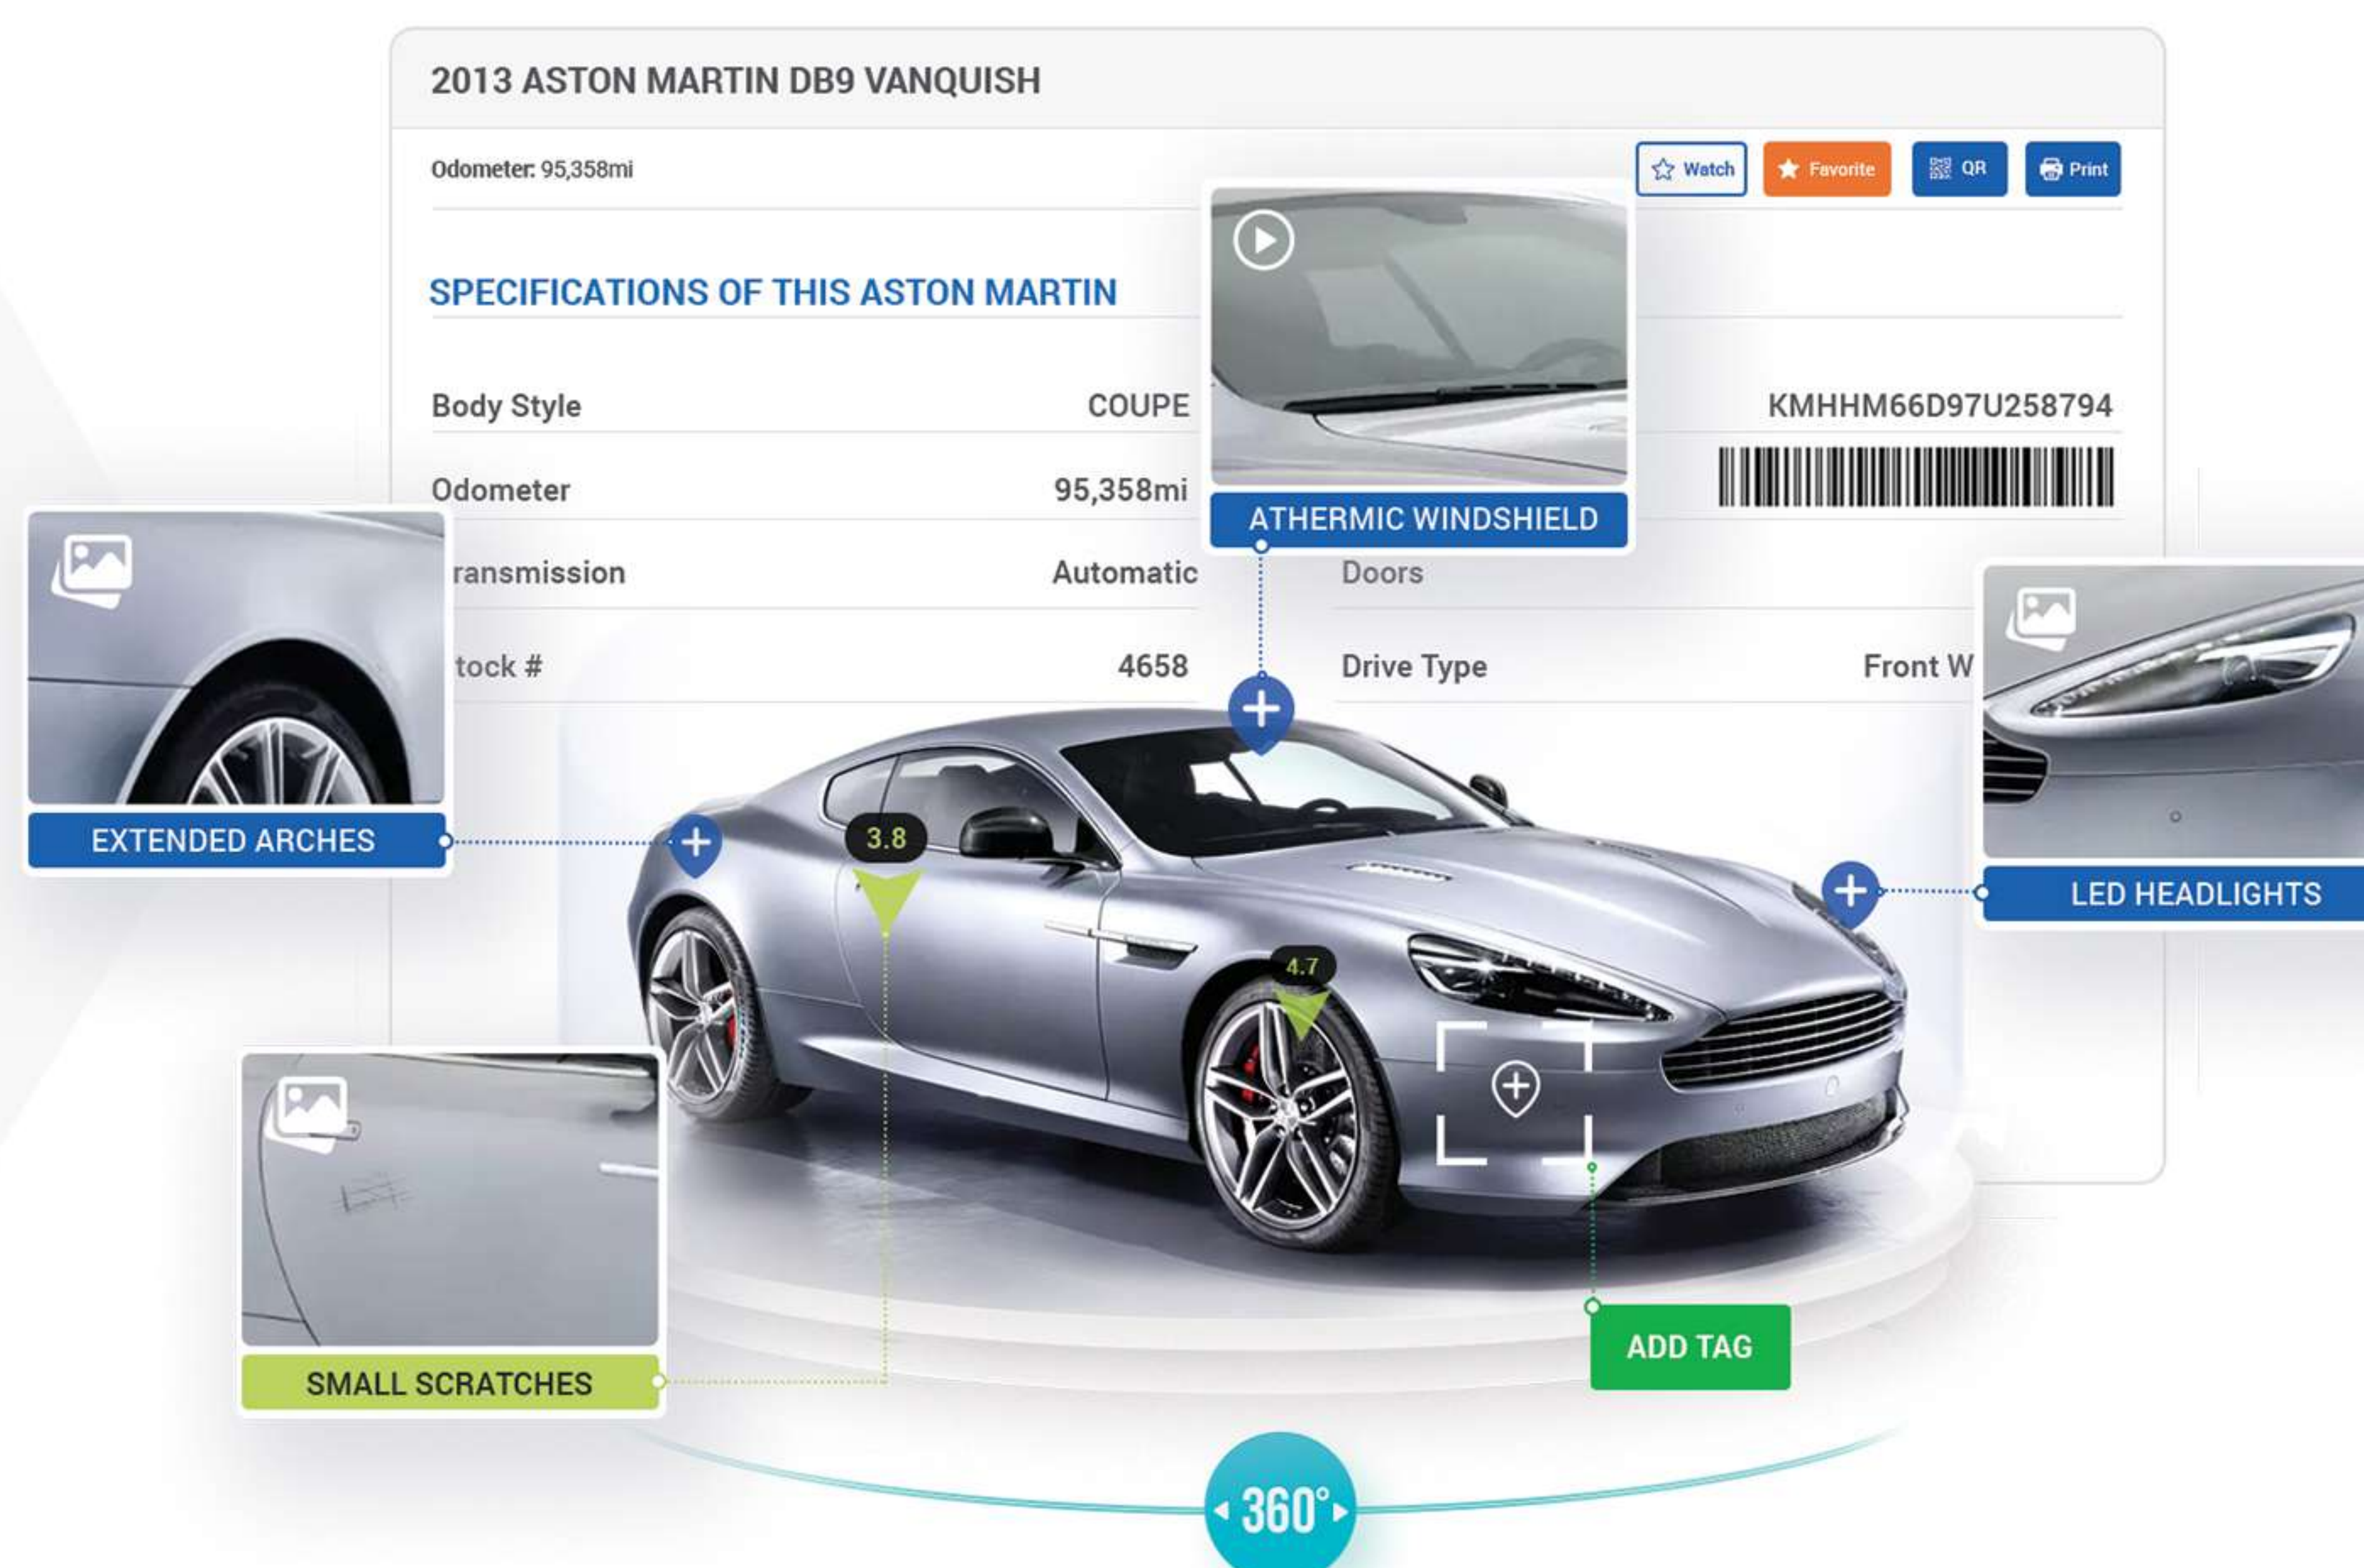

✓ Choose the seller disclosure; As-Is, Ride and Drive, Caution or Auction Guarantee.

☆ The level of detail our VIR™ provides is not available with any other system on the market today.

⚠️ User access control limits puts you in control of who can view, update and assign a VIR™.

🕐 Choose start time/end time.

📎 Ability to attach photos to specific damaged areas.

VIN decode either via 2D or 3D barcode scanner.

🖼️ On the fly or bulk image upload capability.

📍 Choose physical location of vehicle.

Admin dashboard that allows users the ability to manage all inventory.

ⓘ Enter vehicle details and recovery information.

💵 Enter pricing information (starting bid, floor price, bid increment, buy now price).

✏️ Manually add or ,edit vehicle options.

Patent pending GUI interface that reduces the time to upload a comprehensive vehicle inspection to all three auctions in under 20 min/vehicle on average (Live on OVE, Adesa and SmartAuction).

SMALL SCRATCHES

ADD TAG

◄ 360° ►

Get your car shoppers engaged and move them from doubt to certainty with the 360VIR™ feature! Easily add 360 panoramic vehicle presentations with interactive embedded hotspots capturing every detail or damage to build trust and sell more.

### 360-DEGREE PANORAMIC VIEW

A single 360 walk-around view is worth more than a thousand regular images while taking much less time to create and upload for you. Just pick a vehicle to which you want to add a 360, go to the 'Images' tab within a VIR™ module, click the 360° icon and you are ready to go! Set the needed walk-around duration (16-60 seconds), tap to start recording and follow the user-friendly instructions. A video stabilization ensures a smooth recording even at fast walking speed.

### HIGHLIGHTS

Add clickable tags that will elaborate on the vehicle history and visually highlight key details. Just tap on any vehicle part or place, add a comment to a tag, attach photos and video to enhance the viewing experience and interactions with your inventory.

### DAMAGE TAGGING

Clearly tag vehicle damages, add close-up images and relate the damage to a corresponding vehicle part specifying the damage type, severity, description, and recommended actions. Instantly calculate the Estimated Repair Cost. Easily capture high-quality panoramic shots with 360VIR™, highlight features and disclose damages to build buyers confidence and sell more vehicles online.

# CRM
## IMPROVE YOUR KPI

## INTEGRATED CALL MANAGEMENT, EMAIL, SMS MARKETING, LEAD DISTRIBUTION

The Auction Streaming CRM is user friendly and has a systematic GUI interface which can easily adapt, and can provide a more simplified workflow logic. It is a fully integrated customer management solution with inbound and outbound calling/SMS along with live chat to provide the most complete CRM solution on the market today. You can assign leads, set escalation, Round Robin and lead data distribution rules to keep track of all lead activity and monitor your sales staff performance from one centralized location.

The CRM is fully interactive with an event calendar, activity based tasks, escalation process and campaign management of a client's budget and purchasing habits.

## CRM ADVANTAGES

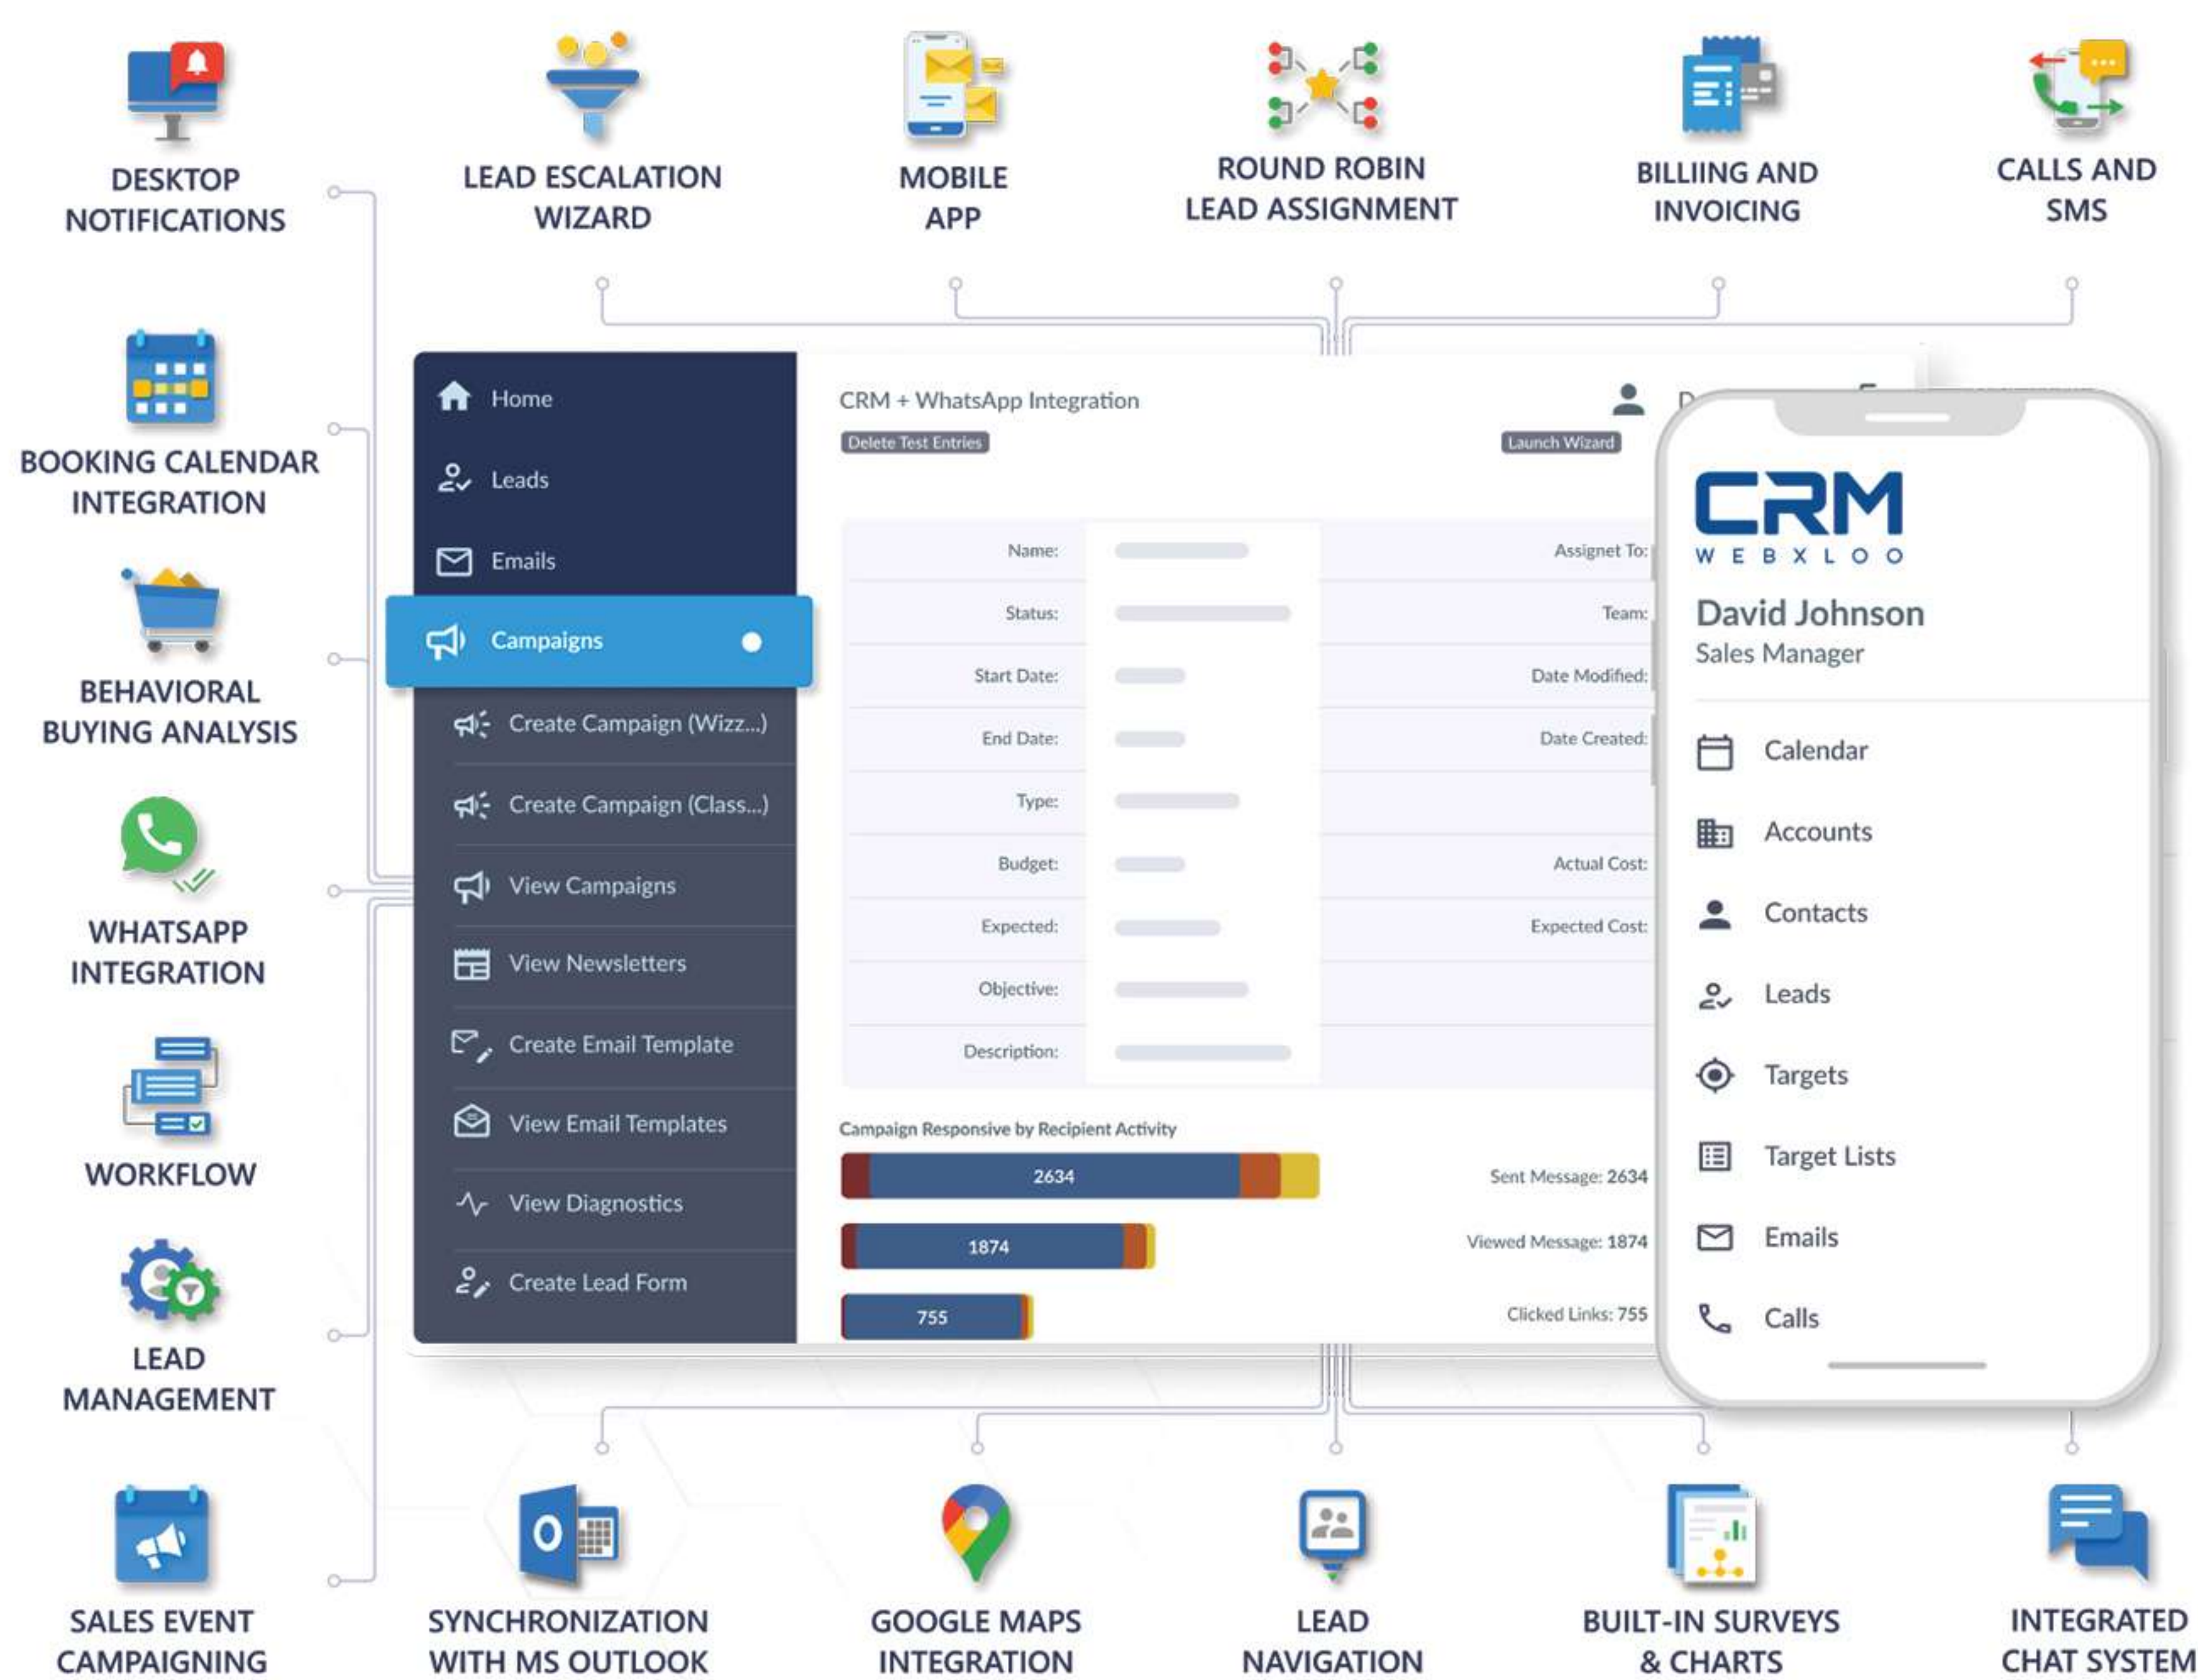

- ESCALATION RULES & PRIORITY
- CONVENIENT CENTRAL DATABASE
- MANAGE MARKETING CAMPAIGNS
- COMPLETE CUSTOMER/LEAD HISTORY
- INBOUND & OUTBOUND CALLING/SMS
- TRACK SALES LEADS FROM START TO CLOSE
- SECURE CONVERSATION RECORDING
- PERSONALIZED CLIENT EXPERIENCE
- ROUND ROBIN LEAD DISTRIBUTION
- SPEECH TO TEXT CONVERSION

The convenience of 24/7 access via your desktop, tablet or smartphone along with the flexibility needed to keep up with the ever changing market conditions. Our mobile application is just as flexible/robust as the desktop version. The application for car dealers, available for both Android and iOS users, allows you to view, create and modify CRM data anytime, via tablet or smartphone. With our latest version, you can now send messages to your clients directly from your CRM and receive their answers in the same convenient way. You are not tied to emails anymore. This feature is also available with our Mobile CRM.

# MARKETPLACE
## EVERY MODULE IN ONE SOLUTION

## REACH BEYOND THE GATES

Sell cars everyday, not just on Sale Day. The Local Marketplace platform offers auctions the opportunity to market and sell online any day of the week; directly from physical inventory of the auction or from virtual inventory on your dealer's lot.

The Local Marketplace is integrated with our AuctionLink™ service, connecting your auction directly with the Dealership Management System (DMS) for seamless uploads of vehicle information and photos.

## MOBILE APPLICATION

## THE SIMCASTS™ MARKETPLACE APP

Our Digital Marketplace web platform has been established to be one of the best ways to wholesale vehicles. But we know that car dealers are definitely not able to be at or near their desktops all of the time. That's why we have converted our Marketplace's desktop version functionality into a mobile application.

The SimCasts™ Marketplace app is software that has been designed with the overall dealership user experience in mind. The intuitive front-end interface combined with a robust back-end creates a richer application that fits right into the palm of your hand.

### EASY-TO-USE

The whole buying experience is very convenient. With the SimCasts™ Marketplace app, buyers are able to safely purchase a vehicle from wherever they are, whether it be at work, at home, or at their kid's school concert.

And you definitely don't have to be a techie to take advantage of this SimCasts™ Marketplace app. Anybody who knows how to use a smartphone can get familiar with using our application.

The SimCasts™ Marketplace app gives your business the ability to wholesale inventory much faster, and get paid for it in less time than what it would take without the app.

### FULLY-FEATURED

When you log into the SimCasts™ Marketplace app, you'll understand what it means to make the most out of those 5-plus inches of screen. Everything that a buyer needs to know in order to make a purchase is fully displayed on their mobile device:

- DETAILED AUCTION LIST
- ADVANCED FILTERING OPTIONS
- VEHICLE PHOTO COLLAGE
- SPECIFICATIONS TAB
- LIVE BIDDING PANEL
- VEHICLE INSPECTION REPORT™ AND LIGHTS
- IMPROVED NAVIGATION
- WATCH LIST
- FIXED BIDDING BAR

## SCAN TO SEE
## HOW IT WORKS

RapidBid MPS is a controlled timed auction that allows you to sell 1000 vehicles in 20 minutes. Attract more Dealers by taking the headache out of the inventory acquisition process enabling them to rapidly Set Proxy, Bid Up, Make Offer, Buy Now without even leaving their offices. Eliminate exhausting drives from one auction location to another and make dealers your life-long customers with Rapid Bid MPS feature.

## BUY NOW

When your buyers like what they see, they can purchase any vehicle on the spot, worry-free with no bidding and no waiting simply by clicking the 'Buy Now' button.

## MAKE OFFER

With a "Make Offer" button, your buyers can instantly make their offers without going through the bidding process.

## BID UP

Your buyers can 'Bid Up' with the set bid increment in one click and watch themselves becoming the highest bidders or being outbid by other participants. The color highlighting is used to indicate the current bidder status, Green - for the highest bidders, Red - for the outbid ones.

## EXTENDED TIME

All bidders will see the exact second the vehicle is sold or the time expires.

## MULTI-LEVEL BIDDING

Your dealers and public buyers will be able to participate and buy online with variable fees structure.

## SORTING & FILTERING

The Sorting option will allow arranging the inventory by Year, Price, Grading, Odometer readings, and Time Remaining from high to low, and vice versa. Filter inventory list by Price, Condition, Body Style, Make, Year, Odometer, and Location to view and interact with only the chosen vehicles. Change the filter and re-organize your preferences anytime.

## LIVE VIDEO STREAMING

## VIDEO INSPECTIONS

The LVS™ (LIVE VIDEO STREAMING™) application is the next evolution in post sale inspections and video test drives. Posting pre-recorded test drives to the Auction website can provide additional insight into the vehicle's condition. Documenting and broadcasting Post Sale inspections ensure confidence for Auctions and Dealers. With Auction Streaming, the applications of LVS™ are limited only by your imagination.
