DIGITAL MARKETPLACE

Our Digital Marketplace has established itself as a leading wholesale vehicle platform. However, we understand that car dealers are not always able to access their desktops. To address this, we have developed the SimCasts™ Marketplace app with the dealership user experience in mind. The app features an intuitive front-end interface and robust back-end, providing a rich user experience that can be easily accessed from a smartphone. With the SimCasts™ Marketplace app, buyers can conveniently purchase vehicles from anywhere. The app is user-friendly and does not require any technical expertise. Additionally, it enables businesses to wholesale inventory faster and receives payment quicker.

MARKETPLACE ADD-ONS

SIMCASTS™ – SIMULCASTS

The SimCasts™ mobile application allows auctions online bidders to participate in the live sale. The SimCasts™ app gives the subscriber a realistic feeling of being present next to the car.

AUCTIONEER DISPLAY INTERFACE

Our ADI seamlessly bridges the gap between the "In Lane" and "Online" buying experience to keep all dealers engaged and make the auctioneer even more effective.

OfferUp®

IF-SALE COUNTEROFFER

The "IF-SALE Counteroffer Tool" automates the negotiation process allowing buyer and seller to negotiate in real-time without the need to wait in line or any auction staff being involved to complete a deal in 2-3 hours rather than days.

MOBILE DASHBOARD

Auction Streaming's apps will maximize your business opportunities, keep your dealers engaged, attract more bidders to your lanes (both online and digitally), reduce cost while improving your bottom line.

SIMCASTS™ MPS PRESENTER

FLEXIBILITY IN AUCTION VIDEO STREAMING

The SimCasts™ MPS Presenter allows sellers to broadcast a live video session of their vehicles at the auction lane. The SimCasts™ MPS Presenter app gives the subscriber a realistic feeling of being fully present next to the car: the presenter can talk to the viewer, come up closer or step away from the car, show any detail zoomed-in or out, and have a look inside the car which is impossible with a fixed camera.

Finally, buyers get the total flexibility that they seek with Internet shopping by imitating a physical presence at the auction. With SimCasts™ MPS Presenter they have a unique ability to see the vehicle live as it is and to make the right decision about its purchase.

WHOLESALE & RETAIL MARKETPLACE

ADVANCED FILTERS

The presenter will be able to quickly find the required vehicle by using the year, make and model filters.

PRE-AUCTION MODE

The presenter can showcase a vehicle in the dealership before the auction starts or before shipping to the auction room. It's a good opportunity for dealers to sell vehicles without having to wait for the auction and to save on lanes and shipping.

NOTIFICATIONS FOR PRESENTERS

Before the auction ends, the presenters are notified to start the streaming within the last minutes of the auction.

FULL CONTROL OVER THE VIDEO STREAMING

Sales people can easily operate the stream. The application allows presenters to show the vehicle in detail for efficient and effective sales.

HIGH QUALITY STREAMS

The SimCasts video sessions launch and stream even with low quality Internet connection.

Send SMS to your clients directly from your CRM and receive their answers in the same convenient way. Manage your targets, leads, contacts, and accounts while travelling.

CRM WORKFLOW AUTOMATE YOUR SALES PROCESS

ALLOCATE: Create your own rules to automatically assign leads and customers to the reps best qualified to handle them.

INTEGRATION: Reduce your operating cost and grow your business by utilizing standardized working methods for all employees.

AUTOMATION: Streamline the sales, marketing, and support processes.

SCHEDULING: Improve the efficiency of salespeople by eliminating redundant steps while updating records, triggering email notifications at the right time.

Quickly and easily set up an automated workflow that will increase efficiency and make your sales staff more productive.

CRM & PHONE INTEGRATION MADE EASY

The Call Management system allows a user to accept incoming and outgoing calls.

You have full control of who receives a call, in what order they will receive it and the total number of calls.

CALL MANAGEMENT

Can collect your phone calls metrics to monitor their effectiveness and optimize marketing. CRM is fully interactive with an event calendar, activity based tasks, the escalation process and campaign management of a client's budget and purchasing habits.

Set up the Voicemail feature if no managers are available and no one else is able to answer a call. Voicemail transcription allows you to automatically convert a voicemail message to text.

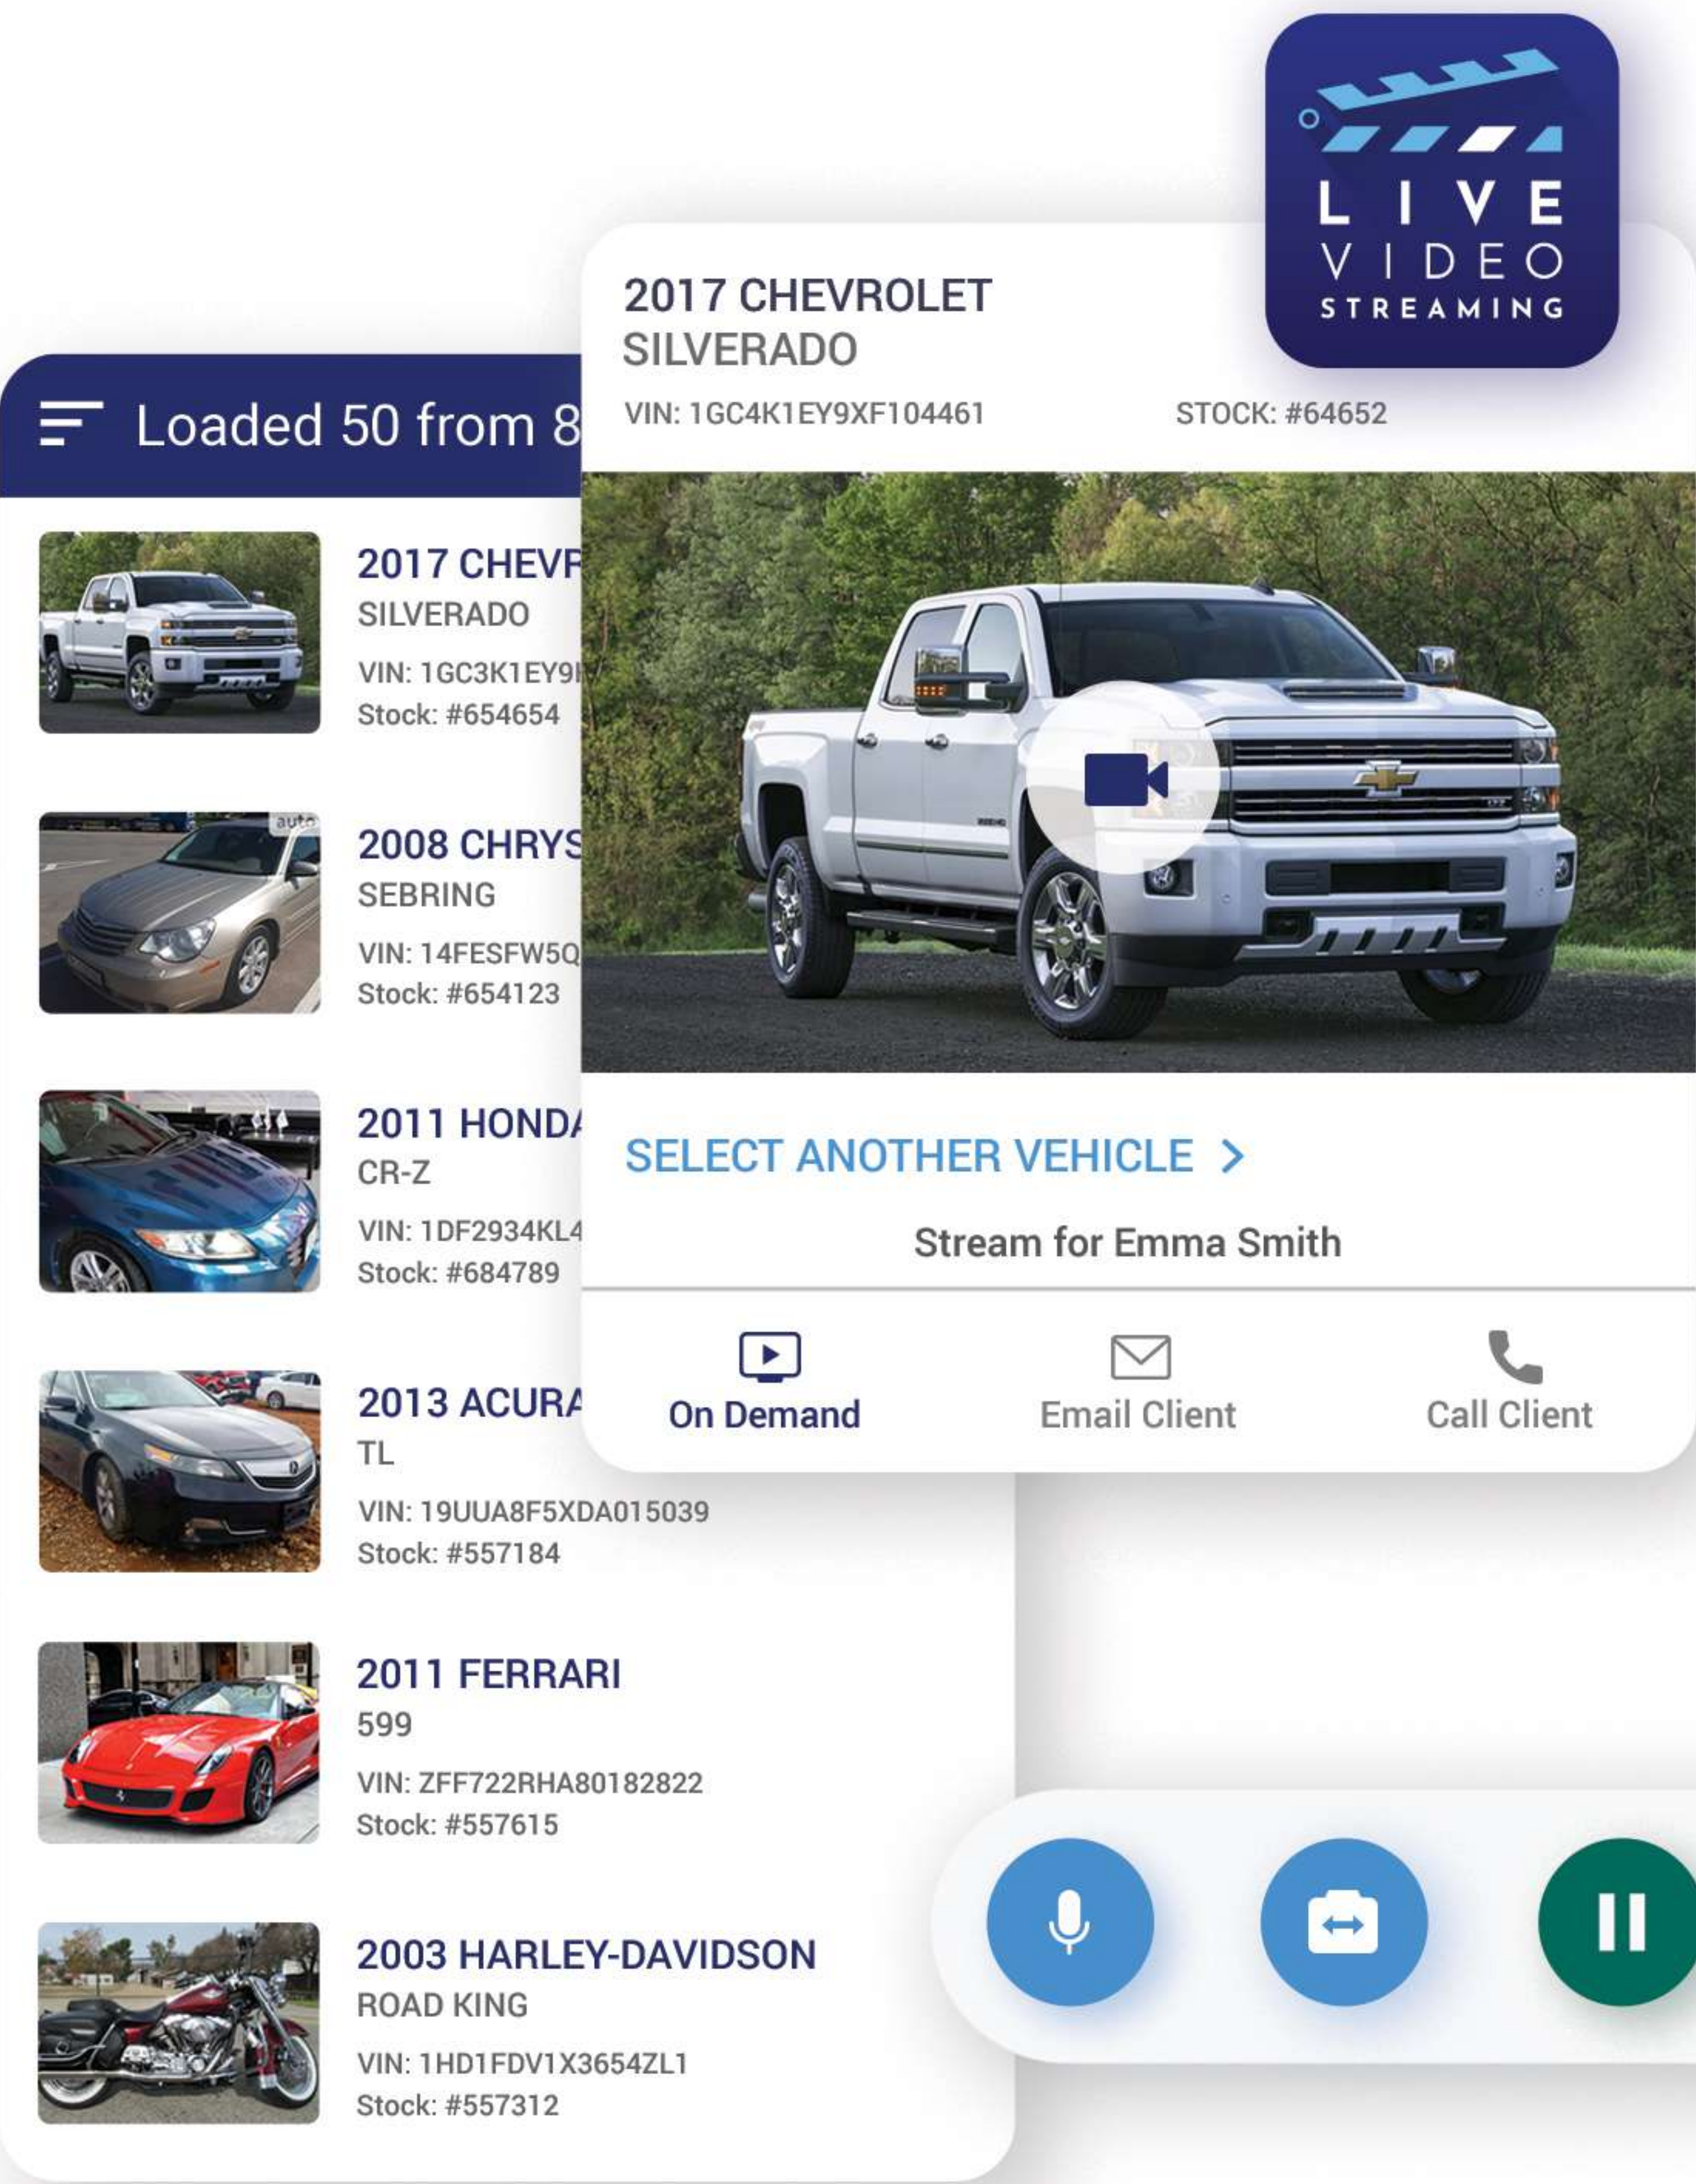

LVS™
LIVE VIDEO STREAMING™

The Live Video Streaming™ application allows the sales person to show a potential customer any vehicle they have in stock in real time just as if the person was at the dealership themselves.

Since the video only streams one way (dealership to consumer) the customer can take a video tour without any privacy concerns.

Using LVS™, a presenter is able to answer viewers’ questions and provide additional information, as well as showcase any car detail upon request. Viewers can make decisions about purchasing the vehicle or scheduling test drives without needing to go to the dealership. With LVS™ on mobile devices, dealers are provided with total flexibility when it comes to providing live vehicle video tours.

Our dealers are also using the live video streaming app to increase their service absorption rates by showing customers first-hand any additional repairs that have been discovered during a visit to the service department, saving the need for the customer to make additional trips to the dealership.

Provides convenience for both parties and improves consumer confidence and retention. By providing a live video tour the dealer gains the trust of the client through transparency and increases consumer confidence of both the sales and service departments.

The LVS™ is fully integrated into the Autoxloo dealer management solution and will also be offered as a stand-alone product that can be easily added to any existing website platform. To view more information or to schedule a “live” demonstration simply contact us now!

UPLOAD, MANAGE, SELL

Getting pictures of current inventory online as quickly as possible just makes good business sense. There's no need to be tied to a computer, confusing software or Internet access at that very moment anymore.

With Autoxloo's mobile, patented Slingshot™ software, dealers can easily and quickly upload photos and videos, and enter any details of a newly acquired vehicle. All data uploaded by Slingshot Mobile is synchronized with our DMS. No need to enter data twice.

This single step can significantly improve your inventory turnover rate. You won't lose any time waiting for a third party to take pictures on site. This simplified and accelerated process of uploading vehicle data will improve your dealership's bottom line at the end of the year.

KEY FEATURES

- PICTURE QUALITY CONTROL
- MOBILE INVENTORY MANAGEMENT
- BETTER SHOWCASING OF THE VEHICLE
- UNLIMITED NUMBER OF VEHICLE PHOTOS
- UPLOAD VEHICLE VIDEO DIRECTLY FROM THE DEVICE IN REAL TIME

TIME TO MARKET

- INCREASE TURNOVER RATES
- PUSH TO ONLINE LISTING SERVICES 12 DAYS SOONER THAN THE TRADITIONAL METHODS
- ADVERTISE ONLINE BEFORE THE VEHICLE LEAVES THE AUCTION

Our VIN explosion and Scan Disc capability makes capturing details of the car surprisingly quick and easy. A convenient visual car condition report allows you to note any unique characteristics of the car with just a few clicks on the screen. You can capture all relevant vehicle information in 5 minutes or less.

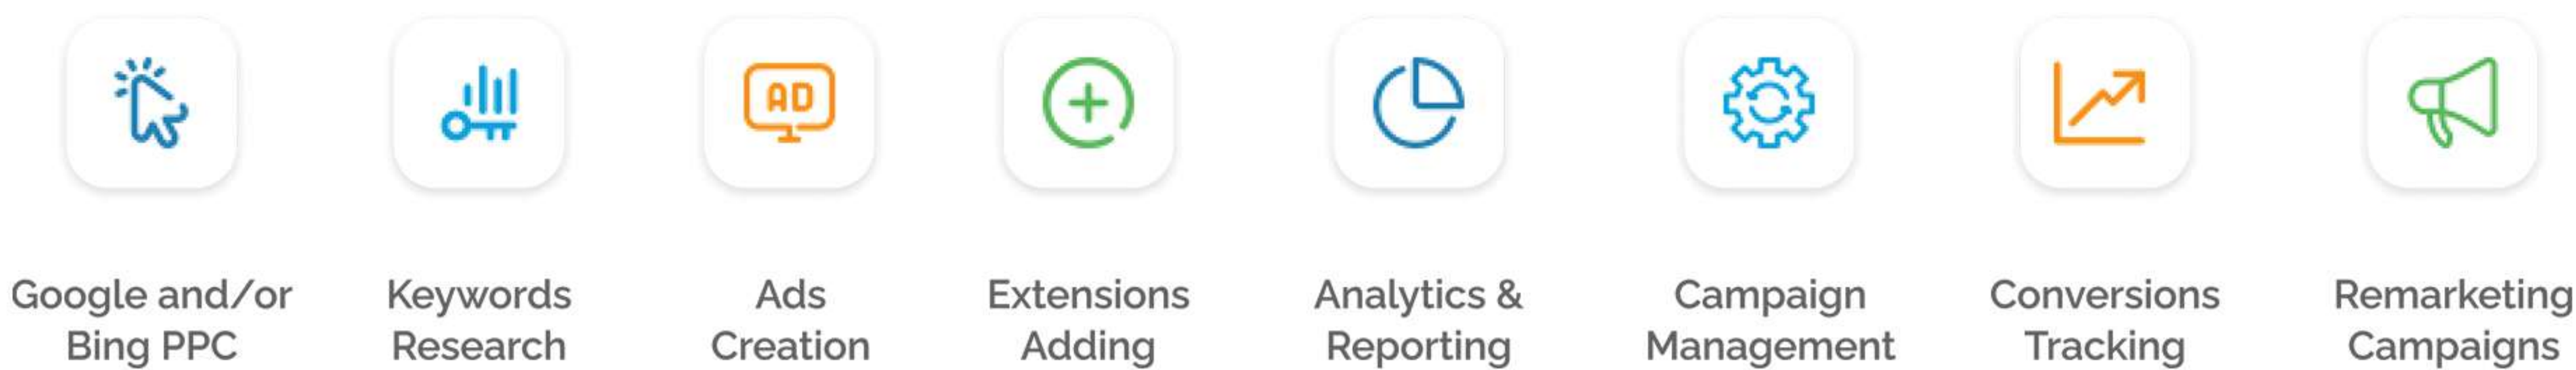

Lost your Internet connection? Not a problem! Upload all necessary data. Your vehicles will just have a pending status, but when the connection is restored, the vehicles will be uploaded automatically. Enjoy the ability to upload or check your vehicle inventory offline!

PPC CAMPAIGN MANAGEMENT

Autoxloo offers professional Pay-Per-Click (PPC) campaigns as an effective online marketing tool to improve website placement on Google and/or Bing, drive traffic, and increase ROI. We provide an extensive list of unique keyword combinations, constantly monitor and adjust campaigns as necessary, and allow control over time, geography, and daily budget. The WXSEM API configurator synchronizes Google Ads and Server Analytics to manage and promote campaigns, validate keywords, and ensure compliance with Google policy.

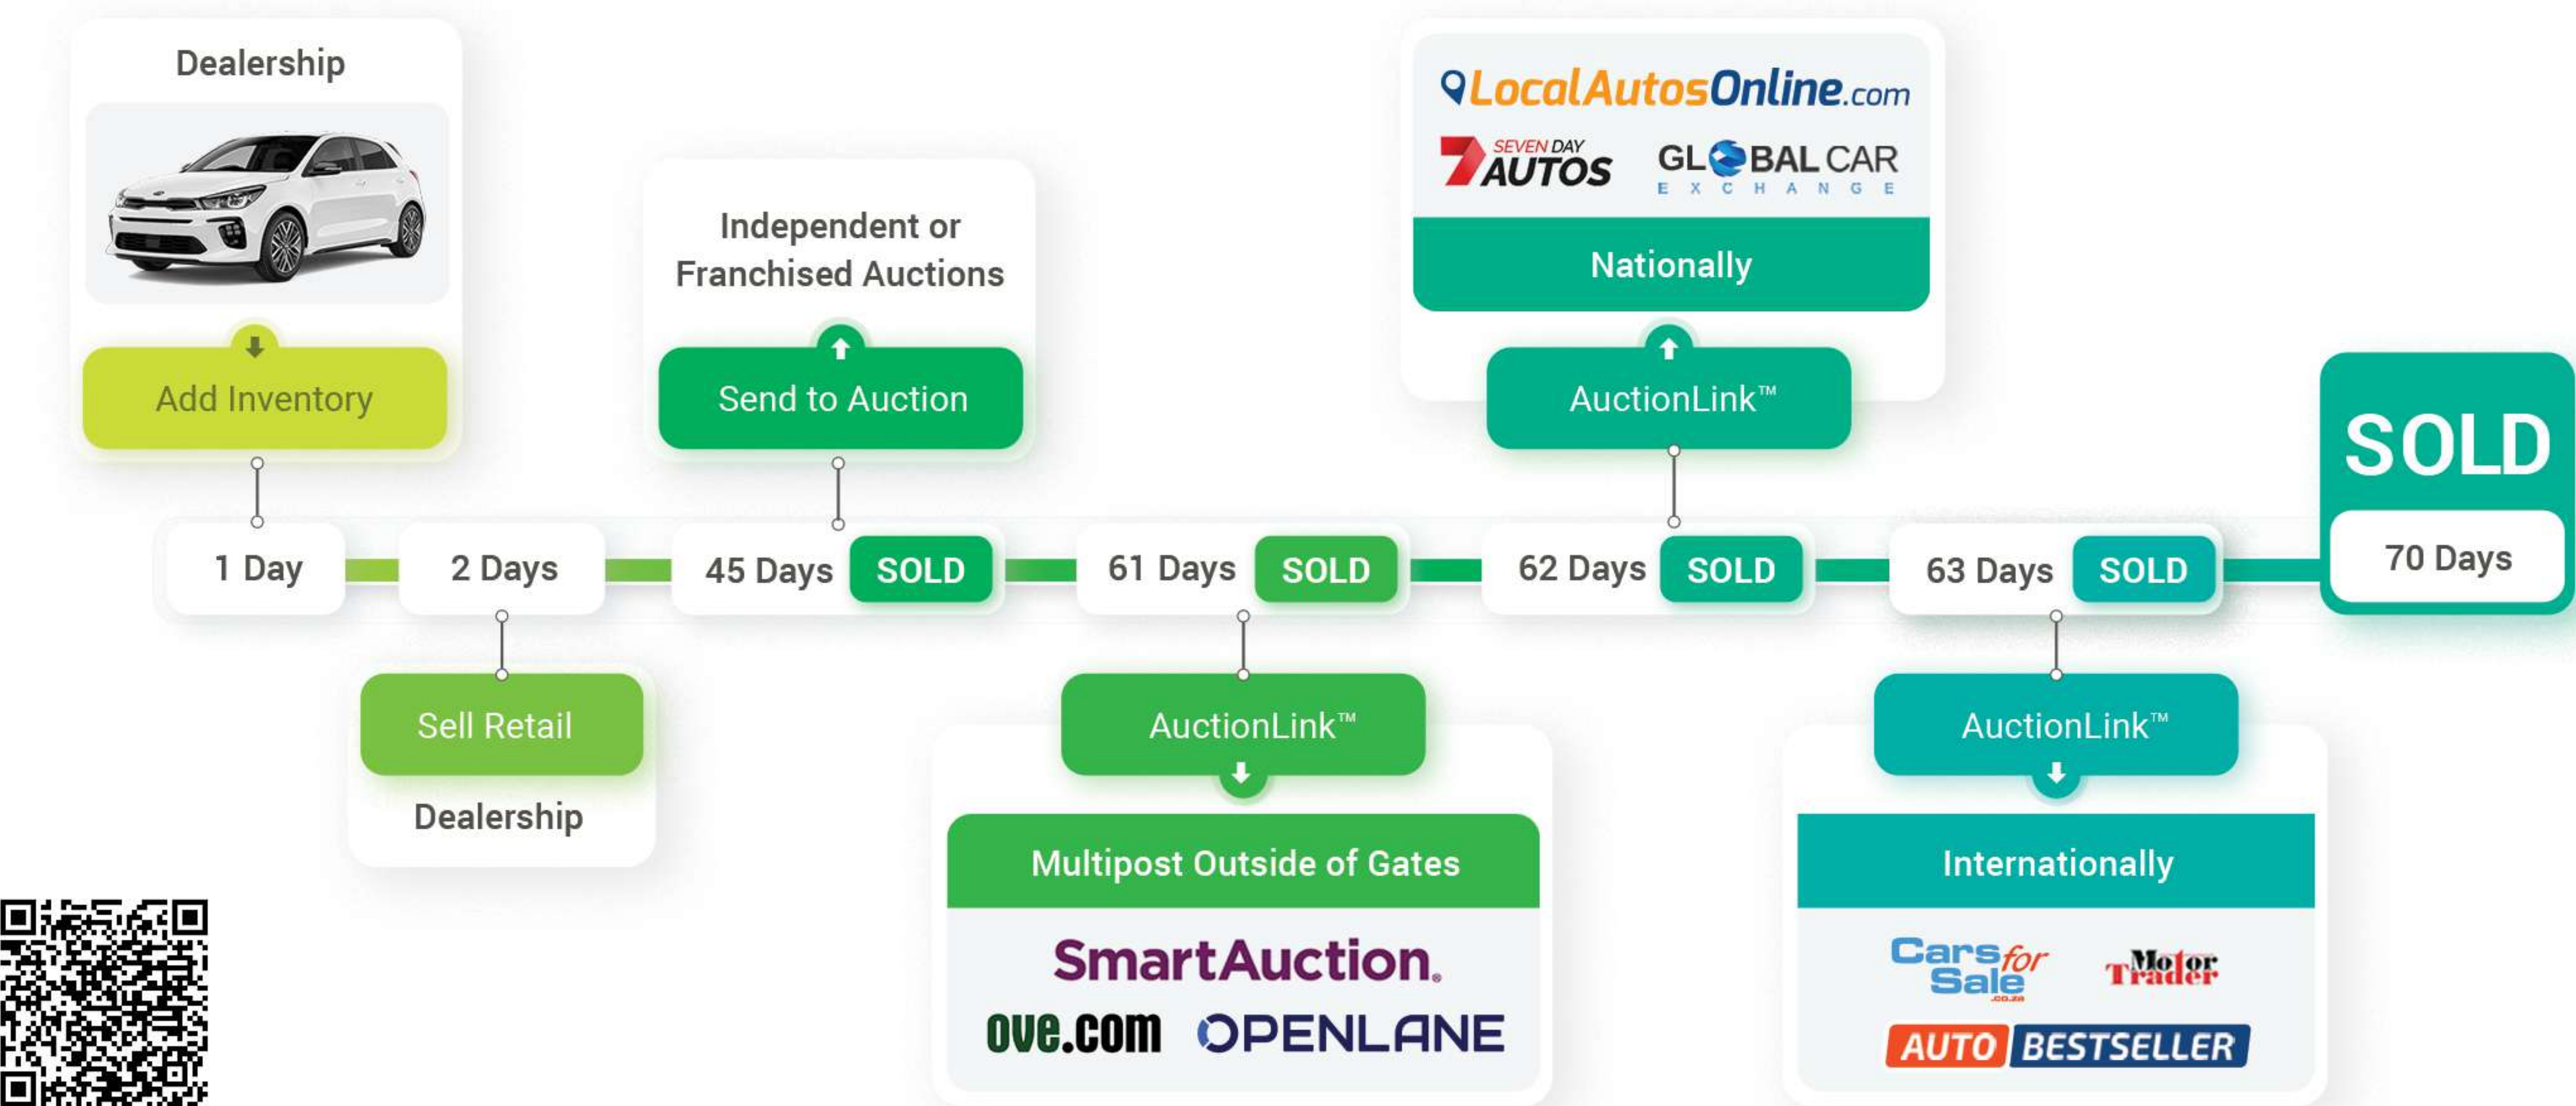

CLASSIFIED POSTING

Autoxloo's Classified Posting Service helps dealers distribute their inventory to potential car buyers by posting on high-engagement classified sites. Consider utilizing Facebook Marketplace and OfferUp, suggested by our experts to expand your reach, deliver a seamless purchasing journey, increase brand awareness, drive growth, and provide a hassle-free car shopping experience for consumers that, consequently, will allow dealers to reach more people online and generate ongoing leads.

AUCTIONLINK™

AuctionLink™ provides a comprehensive solution for dealers, enabling them to centralize and automate their posting strategy across more than 25 highly effective platforms for a duration of 70 days, tailored to the marketing cycle of the vehicle. Serving as a backbone to this approach, the platform facilitates targeted posting to both retail and wholesale platforms. Moreover, the integrated Artificial Intelligence (A.I.) analyzes the type of vehicle to determine the most optimal platform for quick sales while ensuring consistency in pricing and content.

OFF-SITE AND ON-SITE SEO MANAGEMENT

Off-site Search Engine Optimization is the process of promoting your website across the web. It is accomplished from sources other than your dealer website to increase search engine performance for target keywords that are related to your on-site content and the keywords that exist in off-site direct links.

On-site SEO optimization makes your website appealing to both search engines and users. It reviews and improves both the public face of your website and technical set-up that only search engines see.

ADDITIONAL MODULES FOR YOUR BUSINESS SUCCESS

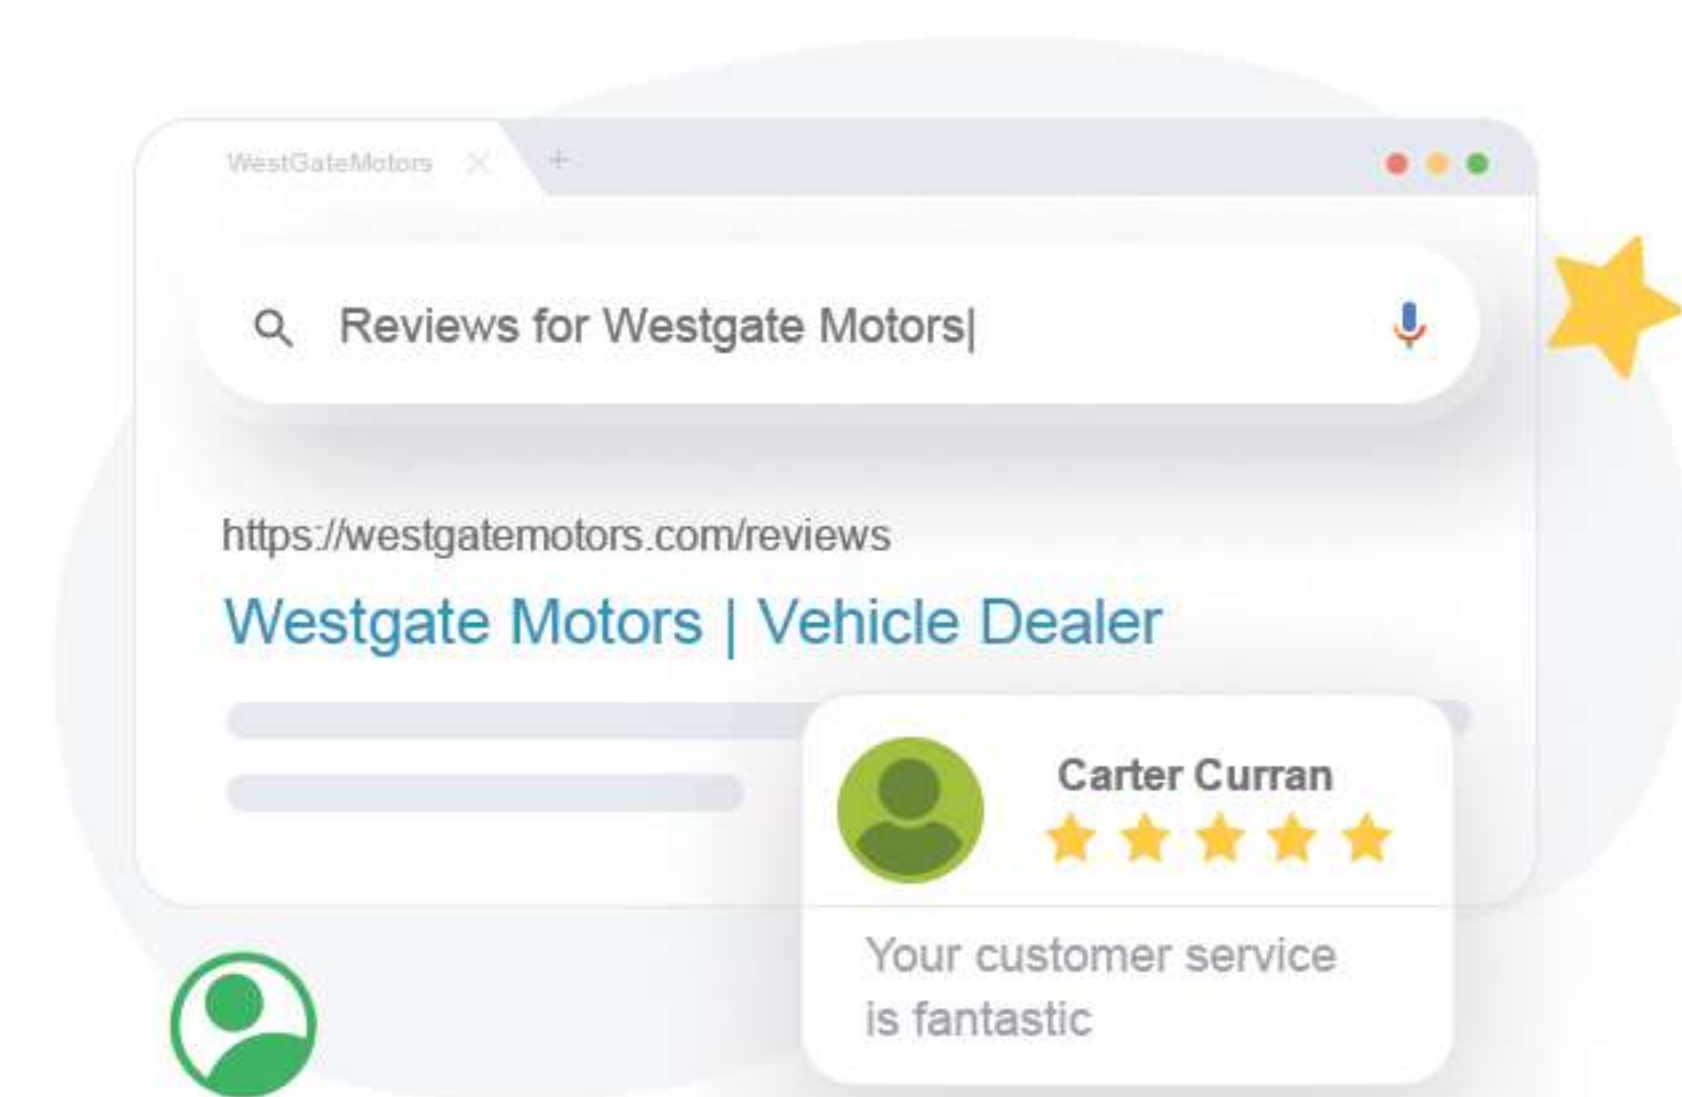

SHOWCASE TOOLS

Autoxloo offers a suite of online tools to help car dealerships showcase their inventory and dealership. These tools include the Vehicle Showcase Tools, which provide professional images, detailed descriptions, and multimedia components to help increase traffic and sales. The Website Multimedia Tools allow dealerships to create and manage their own media content without the need for a designer or programmer. The Dealership Showcase Tools offer additional features for advertising and presenting the dealership itself, such as videos and banners.

BUY HERE PAY HERE

With Buy Here Pay Here, you can Accept customer payments online using our integrated payment gateway. We securely collect payments online, and automate your administrative routine, saving you from any redundant paperwork. The payment form is embedded into the webpage using the data-theft protection specifically developed by Autoxloo. It adds an extra layer of security and protects data from any malicious third-party scripts.

REPUTATION MANAGEMENT

Reputation Management involves monitoring online conversations and reviews about your dealership, employees, and brand to prevent negative reviews from damaging your reputation. Autoxloo offers Reputation Management services that use digital technologies to monitor and manage online conversations about your dealership. Implementing Reputation Management proactively can prevent negative reviews from hurting your dealership's reputation. Autoxloo can help monitor online conversations and take appropriate action to protect your reputation.

CUSTOM FORMS

Online Custom Forms improve the user experience and speed up the lead acquisition process. The E-signature feature provides a legally binding online PDF document, saving time and reducing the approval cycle time frame. The Dealer Review module enables customers to evaluate and post personal reviews about the dealership. Reputation Management can help increase the number of positive reviews. Creating a space on your website where customers can post reviews can also help make a positive first impression.

VIDEO INTEGRATION AND PRODUCTION

Autoxloo emphasizes the importance of using YouTube as a platform to drive traffic to your dealership's website and inventory through video content. With Autoxloo's website functionality and innovations, embedding videos on your website becomes an essential part of a successful digital strategy. The key benefits of Autoxloo's video features include 360-degree video walkarounds, video-powered mass email campaigns, uploading videos directly from your DMS to YouTube, custom video commercials, and the ability to advertise daily, weekly, monthly, or seasonal specials through videos that highlight special features such as engine sound or narration. Video testimonials can also reassure potential customers and can be shared on social media platforms like Instagram, Facebook, Twitter, and Pinterest.

PROCESS ENHANCEMENT TOOLS

MAKE YOUR OFFERS AND PROMOTIONS VISIBLE EVERYWHERE

PHOTOBOX

The Photobox allows the user to upload a large number of images for multiple vehicles from one folder. There is no longer any need to create a unique folder for each vehicle.

MAKE-A-TEMPLATE™

You now have the ability to fully customize the look, feel, color, content and layout of your eBay and Backpage templates or brochures, and E-Magazine.

ETCH-A-WORD

Many dealerships are impressed with this amazing tool that makes their lives a lot easier. Etch-A-Word is a simple Drag & Drop tool giving your dealership the ability to add descriptions, text, graphics, logos and frames to your vehicle photos fast and without any difficulties.

MAKE-A-COUPON™

Make-A-Coupon™ is a simple and cost-effective way to increase customer loyalty, boost sales, and come out ahead of your competitors. Together, we can meet the challenge and do so successfully.

BUYER'S GUIDE AUTOMATION

Autoxloo now presents: the Buyer's Guide Automation system. No more handwriting the year, make, model, or any other information you need in the buyer's guide. Just notify us of the requirements and your Buyer's Guide is ready in no time.

ON-SITE AD MANAGER

Recent studies have shown that there is a direct correlation between the type of vehicle a person is searching for and what type of "incentive" persuades that customer to complete the purchase.

MAKE-A-PAGE 2.0™

Autoxloo's patented Make-A-Page 2.0™ technology offers the flexibility to make changes to the building blocks (widgets) of your website, at any time of the day without the need of having a programmer change your settings.
